From Conflict to Inclusion in Housing Graham Cairns,Georgios Artopoulos,Kirsten Day,2017-11-13 Socio-political views on housing have been brought to the fore in recent years by global economic crises, a notable rise of international migration and intensified trans-regional movement phenomena. Adopting this viewpoint, *From Conflict to Inclusion in Housing* maps the current terrain of political thinking, ethical conversations and community activism that complements the current discourse on new opportunities to access housing. Its carefully selected case studies cover many geographical contexts, including the UK, the US, Brazil, Australia, Asia and Europe. Importantly, the volume presents the views of stakeholders that are typically left unaccounted for in the process of housing development, and presents them with an interdisciplinary audience of sociologists, planners and architects in mind. Each chapter offers new interpretations of real-world problems, local community initiatives and successful housing projects, and together construct a critique on recent governmental and planning policies globally. Through these studies, the reader will encounter a narrative that encompasses issues of equality for housing, the biopolitics of dwelling and its associated activism, planning initiatives for social sustainability, and the cohabitation of the urban terrain.

Social Geographies The Newcastle Social Geographies Collective,2020-10-19 Social geographies is a flourishing field that studies a diverse range of current social issues through a spatial lens. Capturing a lively and dynamic area of scholarship, this major textbook showcases the breadth of conceptual and empirical approaches that social geographers use to understand the world we live in. It is collectively authored by one of the largest groups of social geographers in the world. The book develops a vision of social geographies that is rooted in longstanding commitments to justice, equality and social change, while incorporating new approaches, topics and concerns. It offers the most contemporary and comprehensive round-up of social geographies to date, making sense of its rich and diverse interests. Its 34 chapters contain lively and accessible summaries of current research on familiar topics such as space and time, race, class, housing and health; and recent developments including digital worlds, performance, sustainability and food. Above all, this collection makes clear the enormous relevance and contributions of social geographies, not only to our understanding of a wide range of global and local issues, but also to working for change for a better world alongside communities, policy makers and social movements.

Multiculturalism, Whiteness and Otherness in Australia Jon Stratton,2020-07-17 This book examines the experience of

race and ethnicity in Australia after the withering away of official multiculturalism. The first chapter looks at the formation of the Australian state, the role that multiculturalism has played, and the impact of neoliberal ideas. The second chapter takes nightclubbing in the city of Perth during the 1980s, the peak period for official multiculturalism, to exemplify how diversity and exclusion functioned in everyday life. The third chapter considers the imbrication of Christianity in the Australian socio-cultural order and its impact on the limits of multiculturalism with particular concentration on Islam and the Australian Muslim experience. Subsequent chapters discuss the exclusionary experience of various groups identified as non-white through the lens of films, popular music and television programs.
