**Documents of the LGBT Movement** Chuck Stewart, 2018-05-25 Beginning from the First People, through the influx of European settlers and the slave trade from Africa, to the modern era, this book presents and discusses documents that reflect pivotal moments in the LGBT rights movement in North America. While most would think of the modern Gay Rights Movement as beginning in the 1960s, in reality, the issue of nonheterosexual human behavior within society and the campaign to achieve equality and acceptance have existed far earlier. Beginning with the First People in the Americas and their acceptance of tribal members who did not conform to gender and sexual binary roles, to the expansion west and establishment of the United States as a Republic, to the contentious struggles for equality in the 20th and 21st centuries, this reference traces the development of the Gay Rights Movement through the examination of primary source materials related to the incremental changes toward making America safe for all people. These documents enable readers to reflect on pivotal moments in the LGBT rights and sexual equality movement in the past up to the achievement of marriage equality. A modern chronology traces key events in the Gay Rights Movement across the last 70 years, such as those during the World War II era, the formation of the Mattachine Society in Los Angeles in the 1950s, to the Stonewall Riot in New York in the late 1960s, the elimination of the category of homosexuality as a mental disorder in 1973, the judgment in 2003 by the U.S. Supreme Court that laws criminalizing sodomy are unconstitutional, and the legalization of same-sex marriage in all U.S. states in 2015.

**Documents on the Genocide Convention from the American, British, and Russian Archives** Anton Weiss-Wendt, 2018-09-20 This document collection highlights the legal challenges, historical preconceptions, and political undercurrents that had informed the UN Genocide Convention, its form, contents, interpretation, and application. Featuring 436 documents from thirteen repositories in the United States, the United Kingdom, and Russia, the collection is an essential resource for students and scholars working in the field of comparative genocide studies. The selected records span the Cold War period and reflect on specific issues relevant to the Genocide Convention, as established at the time by the parties concerned. The types of documents reproduced in the collection include interoffice correspondence, memorandums, whitepapers, guidelines for national delegations, commissioned reports, draft letters, telegrams, meeting minutes, official and unofficial inquiries, formal statements, and newspaper and journal articles. On a classification curve, the featured

records range from unrestricted to top secret. Taken in the aggregate, the documents reproduced in this collection suggest primacy of politics over humanitarian and/or legal considerations in the UN Genocide Convention.
