Heart and Sell Shari Levitin, 2017-02-20 Are you making it difficult for your potential customers to buy from you? Today's buyers are overloaded – overwhelmed by too much information and suffering from decision fatigue. Across industries, customers are delaying purchasing decisions or even choosing to stick with the status quo so they can avoid the dreaded “sales process.” In response, many sales professionals are overcompensating with behaviors that are either too accommodating or that create high pressure – and alienating potential buyers in the process. How can you reconcile your need to meet sales targets with the customer's desire for a heartfelt, authentic sales approach? Author Shari Levitin, creator of the Third-Level Selling system, offers a dynamic framework for effective selling in the Digital Age. Unlike other sales books that focus on abstract tips or techniques, *Heart and Sell* offers a science based real-world approach that will help you dramatically increase your sales—regardless of your level or industry. Discover the 7 Key Motivators that influence every decision your customer will make. Learn to align your sales process with how people buy—instead of fighting against it. Harness the power of the Linking Formula to create true urgency. Master the 10 Universal Truths so you can beat your sales quota without losing your soul. Understand the 6 Core Objections and how you can neutralize them. In a market where the right approach is key, *Heart and Sell* shows you how to blend the new science of selling with the heart of human connection to reach more prospects and consistently close more deals.

I Don't Do Disability and Other Lies I've Told Myself Adelle Purdham, 2024-11-05 “A tender, beautifully written essay collection that is about so much more than parenting a child with a disability.” — Erin Pepler, author of *Send Me Into The Woods Alone* A raw and intimate portrait of family, love, life, relationships, and disability parenting through the eyes of a mother to a daughter with Down syndrome. With the arrival of her daughter with Down syndrome, Adelle Purdham began unpacking a lifetime of her own ableism. In a society where people with disabilities remain largely invisible, what does it mean to parent such a child? And simultaneously, what does it mean as a mother, a writer, and a woman to truly be seen? The candid essays in *I Don't Do Disability and Other Lies I've Told Myself* glimmer with humanity and passion, and explore ideas of motherhood, disability, and worth. Purdham delves into grief, rage, injustice, privilege, female friendship, marriage, and desire in a voice that is loudly empathetic, unapologetic, and true. While examining the dichotomies inside of herself, she leads us to consider the flaws in society, showing us the beauty, resilience, chaos, and wild within us all.

Seeds of Happiness Dr. Mukesh Jain, 2023-07-19 Seed is an extremely important metaphor! We are all seeds! We all carry inside us a lot of seeds! Seed is a symbol of potential, life, and growth. A beautiful blossom already exists within a flower seed, even before it is planted. With the right mixture of soil, sunlight, and rain, the flower's colour, scent, and form naturally emerge in their fullest expression. It is also true that flowers and trees grow toward the light. They seek it out, stretching out of the shadows in order to reach it—sideways if necessary. They seem to figure out on their own where the sun falls. Once

they do, they show an unflappable determination to get there. Similarly, as human beings, we have a natural inclination to grow toward what we desire, striving for the things that give us meaning and joy—the sunlight of life, such as friendships, romantic relationships, fulfilling jobs, and a comfortable home. The book is a compilation of exercises or tools, validated by positive psychology researchers across the world to enhance our wellbeing. Like the law of gravitation and other universal principles, they have been discovered and sharpened by many researchers and experts.

The Secrets of Enduring Love Meg John Barker, Jacqui Gabb, 2016-02-04 The Secrets of Enduring Love focuses on what couples actually do to maintain, nurture and nourish their relationships. The reader will be taken on a journey through different ways of doing relationships, focusing on the key themes which came out of the research: everyday acts of kindness and appreciation; the importance of home; communication and conflict management; sex and intimacy; incorporating others into the relationship (children, pets, friends, hobbies); and telling your own love story. One of the key messages from the

research is that different things work for different people, and at different times in the relationship. For this reason the book focuses on the different practices that we might bring into our own relationships, helping us to recognise the small things which we may be already doing but which ordinarily go by unnoticed, and offering a helping hand to find out what works best for us.
