## Marina Caldarone

Actions Marina Caldarone, Maggie Lloyd-Williams, 2004 A vital companion for actors in rehearsal - a thesaurus of action-words to revitalise performance, with a foreword by Terry Johnson. Finding the right action is an essential part of the process of preparation for the actor. Using this thesaurus of active verbs, the actor can refine the action-word until s/he hits exactly the right one to help make the action come alive. The method of 'actioning' is widely used in rehearsal rooms, but has never before been set down in a systematic and comprehensive way. 'If you want to act, or act better, Actions will take you a long way on the journey to excellence' Terry Johnson

Shakespeare in Action Jaq Bessell, 2019-01-24 - How do actors prepare a script of a Shakespeare play for performance? - Where do directors begin? - What do Shakespeare's plays offer a designer or choreographer? - How do the cast and creative team work together in rehearsals? With Shakespeare in Action, Jaq Bessell presents thirty interviews with theatre practitioners from some of the larger producing theatres in the UK and the US, exploring the various processes which bring Shakespeare's plays to the stage. Actors, designers, directors and choreographers, including Eve Best, Bunny Christie, Gregory Doran and Lindsay Kemp, share their collective wisdom and experience, and reveal how training and practice informs productions of Shakespeare plays. These first-hand accounts provide students of Shakespeare in performance and practitioners with a critical toolkit with which to study the plays in performance.

All the Classroom's a Stage Michael Flanagan, Rose Burnett Bonczek, 2020-10-28 All the Classroom's a Stage reveals how teachers can apply theater skills to the craft of teaching and enhance their ability to engage and motivate students, cultivate collaborative learning, and become stronger and more dynamic 'performers' in the classroom. This book illustrates how to use theater techniques to invigorate the craft of teaching in college classrooms across multiple disciplines. The book shows readers how to explore and apply improvisation, actor-training, and directing techniques to their classroom. By using discipline-specific examples, case studies, and a breadth of theater and teacher-training experience, the book reveals how theatre can strengthen teaching and learning, improve attendance, retention, and students' commitment to their education and to each other. Whether a new teacher navigating the job for the first time or an experienced veteran hungry for new teaching methods, All the Classroom's a Stage will transform a traditional classroom into a dynamic creative space built on

collaborative sharing of the educational experience.

*Acting Heightened Text* Catherine Weidner, 2025-09-30 *Acting Heightened Text: The Basics* offers a foundational understanding of heightened text in drama, fused with a truthful, contemporary approach to acting. Using detailed text analysis and dynamic rehearsal exercises, actors and students bring heightened language to life by cultivating a joyful curiosity. A three-step homework process focuses attention on demystifying the intricacies of verse and prose, conveying meaning, clarifying changes in action (subtle shifts and beat changes), playing actions, and utilizing tactics. An innovative technique called hooking sparks energy between partners, and focuses actors on responding to impulses to create a wide variety of textually-supported choices. The book includes up-to-date practical approaches to effective auditions, callbacks and rehearsals, specific tools for handling rhyming couplets, complex rhetorical arguments, and materials to support a lifelong pursuit of engaging with dramatic material with rigor and passion. *Acting Heightened Text: The Basics* provides a wealth of resources for actors, directors, students, and teachers to navigate the demands and embrace the challenges within dramatic texts. To support the learning process and enhance the understanding of the lessons from the book, please visit the Support Material, available at [www.routledge.com/9781032695297](http://www.routledge.com/9781032695297). These include scenes and monologues for practice, real-life examples of students using these techniques, and detailed examples from the Try It! sections within each chapter, such as line-outs, action verbs, rhetorical maps, and hooking.

*The FRBR Family of Conceptual Models* Richard P. Smiraglia, Pat Riva, Maja Žumer, 2014-10-29 Since 1998 when FRBR (Functional Requirements for Bibliographic Records) was first published by IFLA, the effort to develop and apply FRBR has been extended in many innovative and experimental directions. Papers in this volume explain and expand upon the extended family of FRBR models including Functional Requirements for Authority Data (FRAD), Functional Requirements for Subject Authority Data (FRSAD), and the object-oriented version of FRBR known as FRBRoo. Readers will learn about dialogues between the FRBR Family and other modeling technologies, specific implementations and extensions of FRBR in retrieval systems, catalog codes employing FRBR, a wide variety of research that uses the FRBR model, and approaches to using FRBR for the Semantic Web. Librarians of all stripes as well as library and information science students and researchers can use this volume to bring their knowledge of the FRBR model and its implementation up to date. This book was published as a special issue of *Cataloging & Classification Quarterly*.

*Rethinking International Law and Justice* Charles Sampford, Spencer Zifcak, 2016-04-08 General principles of law have made, and are likely further to make, a significant contribution to our understanding of the constituent elements of global justice. Dealing extensively with global headline issues of peace, security and justice, this book explores justice arising in specific areas of international law, as well as underlying theories of justice from political science and international relations.

With contributions from leading academics and practitioners, the book adopts an interdisciplinary approach. Covering issues such as international humanitarian law, and examining the significance of non-state actors for the development of international law, the collection concludes with the complex question of how best to rethink aspects of international justice. The lessons derived from this research will have wide implications for both developed and emerging nation-states in rethinking sensitive issues of international law and justice. As such, this book will be of interest to academics and practitioners interested in international law, environmental law, human rights, ethics, international relations and political theory.

*Transnational Terrorism and State Accountability* Vincent-Joël Proulx, 2012-11-05 Every State has an obligation to prevent terrorist attacks emanating from its territory. This proposition stems from various multilateral agreements and UN Security Council resolutions. This study exhaustively addresses the scope of this obligation of prevention and the legal consequences flowing from its violation, so as to provide greater clarity on governments' counterterrorism duties and to enhance State accountability for preventable wrongs. It defines the contents and contours of the obligation while placing critical emphasis on the mechanics of State responsibility. Whether obscured by new technologies like the Internet, the sophisticated cellular structure of some terrorist organisations or convoluted political realities, the level of governmental involvement in terrorist activities is no longer readily discernible in every instance. Furthermore, the prospect of governments waging surrogate warfare through proxies also poses intractable challenges to the mechanism of attribution in the context of State responsibility. This monograph sets out the shortcomings of the extant scheme of State responsibility while identifying a paradigm shift towards more indirect modes of accountability under international law, a trend corroborated by recent State and institutional practice. Drawing on varied legal and theoretical influences, the study devises and prescriptively argues for the implementation of a strict liability-inspired model grounded in the logic of indirect responsibility with a view to enhancing State compliance with counterterrorism obligations. This shifts the policy focus squarely to prevention, while promoting multilateralism and transnational cooperation. Ultimately, the legal and policy sensibilities underlying the book converge into a new theory of prevention in counterterrorism contexts. From the Foreword by Judge Bruno Simma, International Court of Justice Even if one might disagree with the bases on which the author constructs his argument, the execution of the argument is solid and thorough. The coverage of the major policy arguments and the available legal source materials is equally impressive. Moreover, the author's positions are genuinely progressive and present a fairly innovative solution, in the form of a strict liability mechanism...It behoves all scholars and practitioners of international law with an interest in combating international terrorism to consider the proposals outlined in this book. *Transnational Terrorism and State Accountability* by Vincent-Joël Proulx has been awarded the 2014 Myres McDougal Prize for best book in Law, Science, and Policy from the Society of Policy Scientists.

**Faster and More United?** Andrea Ricci, Eero Kytömaa, 2006 The last five years have witnessed an increase in global terrorism, natural disasters of an unprecedented scale, kidnappings of EU citizens in conflict zones, coups and assassinations of political leaders. Such events have posed new challenges to global security and the European Union has a responsibility to try to help to solve these problems. This book is a collection of writings and personal insights on the current state of play and future directions of European Crisis Response. Divided into six sections, it brings together experts from EU Institutions, European think tanks and universities, as well as high-ranking officials from the EU Military Staff and experienced practitioners from non-governmental organisations. Pictures from renowned photojournalists complement the texts throughout. It is one of the first comprehensive accounts of European policy in this field.
