**CEO Guide to Doing Business in China** Ade Asefeso MCIPS MBA, 2012-02-15 China is the great economic success story of the past 30 years. Since the “reform and opening-up” policy was introduced in 1978, China has changed beyond recognition. A Soviet-styled planned economy has transformed into a vibrant market-oriented economy and 400 million people have been lifted out of poverty. Well known for its manufacturing capability, China is the largest global producer of toys, textiles, washing machines, cameras and computers (among hundreds of other products). It is also the world’s largest consumer of iron, steel, coal and cement, and China’s hunger for raw materials continues. Over a million enterprises have flourished, and over 40 Chinese companies have entered the global Fortune 500 list.
