El derecho de Armarse Ernesto Villanueva,2017-02-08 En una sociedad polarizada y prejuiciosa, como lo es la mexicana, el tema del derecho a la posesión y portación legales de armas de fuego se halla sujeto a maniqueísmos ético-políticos y, en mayor medida, a una ignorancia atroz. El presente volumen nace a partir de una documentada investigación que busca clarificar los antecedentes, contradicciones, mitos y vacíos de la ley de la materia, El derecho de armarse responde a polémicos cuestionamientos: ¿Ese derecho es un derecho humano? ¿La posesión y portación legales de armas de fuego incide en el aumento de los índices delictivos? ¿Por qué el Estado desalienta un derecho que está previsto en la Constitución? ¿Qué pueden hacer los ciudadanos en su legítima defensa ante la avasallante oleada delincuencia y desprotección casi absoluta por parte del Estado mexicano?

Historia feminista de la literatura argentina Graciela Batticuore,María Vicens,2022-08-26 El siglo XIX estuvo marcado por la revolución, las guerras, las revueltas. También por los intentos de orden, paz y modernización. En ese radio las mujeres fueron imaginadas como eternas “guardianas del hogar”, “pacificadoras”, “ángeles de la casa”, “madres republicanas”. Sin embargo, la prensa y la literatura de la época ofrecen su revés: las mujeres facciosas y combativas, las exiliadas, las viajeras tierra adentro, las inmigrantes, las gauchas, las anarquistas, las feministas, las sufragistas, las disidentes y las locas; las mujeres esclavizadas, las indígenas y las cautivas. Entre todas ellas se asoman las escritoras, las lectoras, las iletradas. Juntas conforman el escenario complejo de una larga centuria en la que impacta una herencia colonial violenta, aunque la nación se adentre decidida en la cultura modernizadora del siglo XX. Este volumen intenta repensar “los comienzos” desde una perspectiva de género, revisando el canon y sus exclusiones. Se trata de identificar las voces, de leer los textos, de observar los cuerpos que intervinieron en los territorios, en la política, en la historia, para ofrecer una mirada renovada del pasado que deje ver cómo actúa el siglo XIX en el XX y en la literatura argentina contemporánea.

Hacia una enseñanza de la Historia renovada Aurora Rivière Gómez,2020-03-18 Al igual que le sucedió a Narciso,

condenado por su engreimiento a enamorarse de su propia imagen atrapada en las aguas de una fuente, podría parecer que la Historia escolar se hubiera visto forzada a devolver continuamente una representación de nosotros mismos -no exenta de arrogancia- que nos impide mirar lo que escapa a ese reflejo. Las autoras y autores del libro proponen liberarse de esta mirada identitaria narcisista -nacionalista y eurocéntrica- haciendo aparecer en la Historia escolar la imagen de otras identidades diferentes, de otras formas de representar y significar procesos históricos y conceptos. El punto de vista que se adopta es el de la heterogeneidad de identidades, representaciones y relatos, más acorde a la realidad de nuestras sociedades y al propio conocimiento histórico que el de la homogeneidad impuesta en la Historia escolar. A través de estas páginas críticas con la enseñanza de la Historia tradicional, se lanzan una serie de propuestas de renovación que consideran el aporte teórico, metodológico y temático de la historiografía reciente, y se ofrecen ejemplos concretos de trabajo en el aula que invitan a los estudiantes a una reflexión sobre la identidad y la alteridad de indudable interés en las sociedades multiculturales actuales.

The Routledge Handbook of Violence in Latin American Literature Pablo Baisotti, 2022-02-28 This Handbook brings together essays from an impressive group of well-established and emerging scholars from all around the world, to show the many different types of violence that have plagued Latin America since the pre-Colombian era, and how each has been seen and characterized in literature and other cultural mediums ever since. This ambitious collection analyzes texts from some of the region's most tumultuous time periods, beginning with early violence that was predominately tribal and ideological in

nature; to colonial and decolonial violence between colonizers and the native population; through to the political violence we have seen in the postmodern period, marked by dictatorship, guerrilla warfare, neoliberalism, as well as representations of violence caused by drug trafficking and migration. The volume provides readers with literary examples from across the centuries, showing not only how widespread the violence has been, but crucially how it has shaped the region and evolved over time.

Che Lives! Shannon Brincat, 2025-08-12 This book explores the vast and ongoing legacy of Che Guevara in world politics. It is one of the first volumes to explore both historical and contemporary manifestations of Che's legacy, with an emphasis on the international dimensions of his thought and praxis. The chapters in this volume explore the ongoing influence of Che across political economy, revolutionary traditions, guerilla warfare, resistance movements in the global South, studies of neoimperialism and decolonialism, internationalism, education, and political theory. This volume highlights that Che's

thought remains highly relevant in contemporary world politics because the structures of global economic exploitation and social marginalisation continue to operate as they did in Che's time. This volume offers a critical engagement with Che's ideas and actions across world politics, weaving a path beyond 'man, myth, and moment' narratives, to offer a balanced account that engages across the highly contested nature of Che's legacy. This book will be of interest to anyone concerned with history, politics, and international relations. Most of the chapters in this book were originally published as a special issue of Globalizations, with this edition featuring three new chapters, an updated Introduction and a new postscript.

La economía ilícita en España Armando Fernández Steinko, 2021-05-20 La luz natural apenas penetra en el mundo de la delincuencia económica, un mundo habitado por la doble moral, la inconfesión y la palabra falseada. Utilizando fuentes primarias (hechos probados en sentencias judiciales, entrevistas directas con toda clase de actores y una vasta bibliografía de investigadores solventes), este libro presenta una reconstrucción de los procesos de generación de activos ilícitos en España y de su andadura por su sistema económico y social. Armando Fernández Steinko guía al lector en un recorrido por las catacumbas de la economía ilícita, con una propuesta de regeneración moral y normativa, que solo será posible superando la estrechez de miras de la pequeña política partidaria.
