Music and Narrative Since 1900 Michael L. Klein,Nicholas W. Reyland,2013 This comprehensive volume offers a wide-ranging perspective on the stories that art music has told since the start of the 20th century. Contributors challenge the broadly held opinion that the loss of tonality in some music after 1900 also meant the loss of narrative in that music. To the contrary, the editors and essayists in this book demonstrate how experiments in approaching narrative in other media, such as fiction and cinema, suggested fresh possibilities for musical narrative, which composers were quick to exploit. The new conceptions of time, narrative voice, plot, and character that accompanied these experiments also had a significant impact on contemporary music. The repertoire explored in the collection ranges across a wide variety of genres and includes composers from Charles Ives and the Pet Shop Boys to Thomas Adès and Dmitri Shostakovich.

Ontology of Time L. Nathan Oaklander, 2004-07 L. Nathan Oaklander is one of the leading philosophers of time defending the tenseless or B-Theory of time. He has remained at the forefront of this field since the early 1980s and today he is arguably the most formidable opponent of the tensed or A-theory of time. Much of the direction of the debate in this field for the past twenty years or so, especially in regards to the new tenseless theory of time, has been influenced by Oaklander's work. This book presents a carefully argued defense of the tenseless theory of time. The topics discussed include: the ontology of A- and B-theories of time; presentism; the open future theory; the A/B theory; defending the B-theory of time; temporal experience; temporal semantics; and time, identity, responsibility, and freedom.

God Moments Jeremy Langford, 2001 The author encourages his peers to reconsider faith, telling stories from his own life, and challenging readers to discover how meaningful and satisfying religion can be. The book focuses on Catholic spirituality, but also celebrates thinkers from other traditions.

Caught in the Crossfire Lawrence Grossberg, 2015-12-03 Caught in the Crossfire reveals how the United States has been gradually changing from a society that celebrates childhood into one that is hostile to and afraid of its own children. Today kids are often seen as a threat to our social and moral values. In schools, some behavior is criminalized, and growing numbers of kids find themselves in penal and psychiatric confinement. This breakdown is often too readily attributed to bad parenting, the crisis of the family, or the greed of capitalism. Grossberg offers a new and original understanding of the changes transforming contemporary America, and of the choices Americans face about their future. He documents the relations between economic ideologies and economic realities and explores what is going on in the culture wars as well as on the Internet and other new media. Caught in the Crossfire argues that all of these changes and struggles, including those involving the state of kids, only make sense as integral parts of a larger transformation to define America's uniqueness and to develop its own sense of modern culture. Part of the Cultural Politics and the Promise of Democracy Series.
