Test de jugement situationnel des concours des institutions européennes Claire Mercier, Emmanuel Hetru, Jean-Luc Bizeur, 2014-05-01 Cette nouvelle édition, entièrement revue et augmentée, s'adresse à tous les candidats aux concours des institutions européennes qui souhaitent se préparer dans les meilleures conditions au test de jugement situationnel. Le test de jugement situationnel évalue le comportement et la prise de décision du candidat en milieu professionnel. Il comprend 20 questions à choix multiple (QCM). Chaque question décrit un scénario en rapport avec une situation de travail et une série de 4 actions possibles. Le candidat doit choisir l'action qui lui paraît la plus efficace ET celle qui lui paraît la moins efficace. Comme tous les tests d'accès, le test de jugement situationnel est difficile. Pour le réussir, le candidat doit : maîtriser les compétences EPSO ; connaître les valeurs des institutions européennes ; être capable de trier les actions selon différents critères ; s'entraîner. Ce nouvel ouvrage publié par l'ORSEU donne toutes les chances au candidat de réussir le test de jugement situationnel. Il comprend : une méthodologie complète, illustrée par de nombreux exemples ; 120 questions avec corrigé détaillé ; une grille d'évaluation par compétence Les questions que nous proposons sont similaires à celles des concours organisés par l'EPSO depuis 2010. Elles sont différentes de celles de notre précédent ouvrage et s'adressent à toutes les catégories de concours.

La carrière diplomatique en Belgique Raoul Delcorde, Michel Liégeois, Fanny Lutz, Claude Roosens, 2014-11-20 Ce livre, le premier du genre en Belgique, se propose d'assister les candidats au concours diplomatique dans la bonne préparation des épreuves. Il apporte aussi un éclairage historique sur la « Carrière » et sur l'évolution de la fonction diplomatique.

Handbook of Military Psychology Stephen V. Bowles, Paul T. Bartone, 2017-12-05 This expert compendium surveys the current state of military psychology across the branches of service at the clinical, research, consulting, and organizational levels. Its practical focus examines psychological adjustment pre- and post-deployment, commonly-encountered conditions (e.g., substance abuse), and the promotion of well-being, sleep, mindfulness, and resilience training. Coverage pays particular attention to uses of psychology in selection and assessment of service personnel in specialized positions, and training concerns for clinicians and students choosing to work with the military community. Chapters also address topics of particular salience to a socially conscious military, including PTSD, sexual harassment and assault, women's and LGBT

issues, suicide prevention, and professional ethics. Among the specific chapters topics covered: · Military deployment psychology: psychologists in the forward environment. · Stress and resilience in married military couples. · Assessment and selection of high-risk operational personnel: processes, procedures, and underlying theoretical constructs. · Understanding and addressing sexual harassment and sexual assault in the US military. · Virtual reality applications for the assessment and treatment of PTSD. · Plus international perspectives on military psychology from China, Australia, India, and more. Grounding its readers in up-to-date research and practice, Military Psychology will assist health psychologists, clinical psychologists, psychiatrists, and clinical social workers in understanding and providing treatment for military populations, veterans, and their families, as well as military psychologists in leadership and consulting positions.

Tests de jugement situationnel des concours des institutions européennes Jean-Luc Bizeur, Isabelle Farchy, Pascal Demaen, 2010 Ce livre est destiné à préparer le Test de Jugement Situationnel (TJS) utilisé pour le recrutement dans les Institutions européennes. Dans les concours européens, le TJS est particulièrement important. C'est une passerelle entre la présélection et le centre d'évaluation. Le candidat qui réussit les épreuves de présélection se trouvera confronté à ses résultats aux TJS lors de la phase d'évaluation. Le test de jugement situationnel, comme tous les outils de mise en situation professionnelle, est de plus en plus utilisé dans les procédures de sélection. Constitué de situations correspondant aux fonctions qui seront réellement exercées, il interroge directement les capacités d'adéquation du candidat avec le poste visé. Le jugement situationnel évalue la capacité d'analyse d'un problème et les compétences demandées par la fonction. Le bon sens seul ne suffit pas. Il faut également bien connaître le mode de fonctionnement de la fonction publique européenne. Ce livre a pour but de vous permettre de maîtriser ces différentes dimensions des TJS : la première partie est constituée d'une méthodologie complète basée sur des connaissances indispensables et sur la compréhension de stratégies de réponse efficaces ; la seconde partie constituée de 60 questions avec un corrigé détaillé est destinée à vous permettre de vous entraîner sur des questions du même type que celles du concours.

Elle propose des exercices très récents, réalisés selon les normes des tests de 2023-2024, et fournit des solutions détaillées, des techniques de calcul avancées, et des astuces essentielles pour la réussite. La deuxième section traite des tests de compétences comportementales, notamment le traitement de dossier, le jugement situationnel, et le bac à courrier. Elle présente des exercices, des solutions, et des stratégies spécifiques à chaque type de test, permettant une préparation optimale. La dernière section est dédiée aux entretiens oraux et emploie la méthode S.T.A.R pour préparer les candidats aux diverses questions et études de cas qui pourraient leur être soumises. LJI Michael Lock,Robert Wheeler,2010 La relation entre le manager et son équipe repose en partie sur les prises de décision du manager. Le LJI est un test de jugement situationnel qui évalue la capacité d'adaptation des managers et leurs préférences de management (comportements d'évitement par exemple). L'inventaire est constitué de 16 scénarios en contexte professionnel de management. Au regard des différents paramètres décrits dans les mises en situations, la personne estime et évalue la pertinence de chaque décision qui lui est proposée. Les résultats sont analysés en termes de préférence de style de leadership et en termes de jugement, c'est-à-dire, la capacité à choisir, en fonction de tous les paramètres, le style le plus approprié de leadership. Chaque style de leadership est présenté dans le modèle à travers ses forces et ses faiblesses potentielles. Cet outil permet ainsi de répondre au besoin d'évaluation objective des compétences managériales et d'aider les professionnels dans le processus de développement des personnes et des équipes. Professionnels concernés : professionnels des ressources humaines, formateurs, coaches, psychologues, enseignants en management. Public concerné : à partir de 18 ans.
