Law Of Attraction Zachariah Albert,2019-07-26 Are you ready to manifest anything you want into your life? Looking closely at our everyday life, you will realize that the law of attraction is present all the time. Most people do not notice the connection because of the time lag between their thoughts and the manifestation of their thoughts. However, there are some things that happen to us that we feel happened as a result of a coincidence, not knowing it is the law of attraction that is at work. For instance, have you ever thought of calling a friend, and the friend calls you around that time? Or have you ever thought of picking up your phone, and your phone rings at that instance? These experiences are not coincidences; they are a result of the law of attraction. We get more of what we focus on in life. That is why you need to get more creative with your thoughts. In this book, I am going to show you how you can consciously and deliberately attract good things into your life by aligning your thoughts in the right way. Focusing more on things that make you happy increases your chances of attracting things that make you happy. The other side of this is the negative side which is when you focus on things you are not happy about, you tend to attract things that will make you sad. For instance, if you focus on wealth and good health, you attract wealth and good health. However, if you focus on poverty, you will attract a situation that will rob you of the little things you have gathered. Here's a sneak preview of what you'll learn from this book: □What the Law of Attraction is □The Science behind it □How to attract Love using the LOA □How to attract Money using the LOA □How to attract Happiness using the LOA □How to attract Health using the LOA □How to be more Positive using the LOA □How to Integrate the LOA into Your Daily Life □and much much more! The Teen With A Millionaire Mindset Laura Lyseight,2010-03-01 As a teen, I bet you have been told many times or, in your subconscious mind, you have the idea that having too much money is evil or bad. Then again, you might have heard people talk about how only the mean and bad guys have all the money or that money is not easy to come by. Have you, however, wondered why most of the grown-ups you know have become given-ups? Have you noticed the frustrations that most adults are going through living average lives? Truth is, your own mindset can make or break you. The society and the environment in which we find ourselves have succeeded in making the majority of people think there is barely enough and have programmed people to live in mediocrity. As a young person, are you prepared to tow this line or are you prepared to change your mindset, to shift your consciousness and awareness to abundance? This book throws light on how most minds are untapped and exposes the hidden capabilities of the young millionaire's mind. Do you want to set your mental frequency to abundance? It is your rightful position in life. "Millionaires are made, not born" (Laura Lyseight). Once you start thinking right at this stage in your life, the rest will be history because you will surely make your millions and even billions. "You are only young once and if you work it right, once is enough" (Joe E. Lewis).
