Ecopoetics of Reenchantment Bénédicte Meillon,2022-11-07 Ecopoetics of Reenchantment: Liminal Realism and Poetic

Echoes of the Earth tackles the reenchantment process at work in a part of contemporary ecoliterature that is marked by the resurfacing of the song of the earth topos and of Gaia images. Focusing on the postmodernist braiding of various indigenous and ecofeminist ontologies, close readings of the animistic and totemic dimensions of the stories at hand lead to the theorizing of liminal realism—a mode that shares much with magical realism but that is approached through an ecopoetic lens, specifically working an interspecies kind of magic, situating readers in-between human and other-than-human worlds. This book promotes a worldview based on relationships of reciprocity and symbiosis. It restores our capacity for wonder together with our sensitive intelligence. Liminal realism adopts a stance in-between scientific, mythical, and poetic worldviews as it calls attention to the soundscapes, odorscapes, feelscapes, and landscapes of the world. This monograph offers an original transdisciplinary and cross-Atlantic take on ecopoetics as it straddles the two academic worlds and sparks a conversation between artworks, theories, and studies emerging from the English-speaking world as well as from Francophone contexts. Entangling the materiality of language back within the flesh of the world, this book and the texts under study provide insight into the fundamentally sym-poietic dimension of ecopoiesis.

Forgive Timothy Keller, 2023-11-07 Pastor and New York Times bestselling author Timothy Keller outlines the reasons why forgiveness has to be a central part of everyone's lives. "To err is human, to forgive divine," has long been aspirational. But our complicated modern world has questioned the benefits of forgiveness. Timothy Keller passionately defends the central role forgiveness has to play in our lives, and shows readers how and why forgiveness is the only way forward in an imperfect world. Forgiving anyone in a meaningful way is one of the hardest things a person can do. If you do not forgive, resentment and vengeance consume you. It is impossible to move past transgression without forgiveness, but few people have the resources and the tools to forgive others fully and move on with their lives. Forgiveness is an essential skill, a moral imperative, and a religious belief that cuts right to the core of what it means to be human. In *Forgive*, Timothy Keller shows readers why it is so important and how to do it, explaining in detail the steps you need to take in order to move on without sacrificing either justice or your humanity.

Language Acquisition and Academic Writing James D. Williams, 2022-11-23 An important contribution to the scholarship on student writing and composition theory, this book presents a new approach to writing instruction based on linguistic research and theory. In this book, leading scholar James D. Williams explores the historical failures of composition studies and the need for effective writing instruction to be grounded in the immersive principles of language acquisition. Starting with an indictment of the historical failures of composition studies to teach students how to become competent writers, the book moves beyond the current flawed theories and practices to introduce a new way forward to improving students' writing skills. Accessible and jargon-free, Williams skillfully explains how students must be immersed in target dialects and registers, with access to a range of authentic texts, to become effective writers of academic discourse. Chapters

include authentic writing samples from the disciplines, including life and applied sciences, social sciences, and humanities. Essential for preservice and practicing teachers of writing, as well as scholars in composition and literacy studies, the book demonstrates how language acquisition is a necessary foundation and provides a road map to improving students' writing proficiency.
