In *Black Mirror and Philosophy*, original essays written by a diverse group of scholars invite you to peer into the void and explore the philosophical, ethical, and existential dimensions of Charlie Brooker's sinister stories. The collection reflects *Black Mirror*'s anthology structure by pairing a chapter with every episode in the show's five seasons—including an interactive, choose-your-own-adventure analysis of *Bandersnatch*—and concludes with general essays that explore the series' broader themes. Chapters address questions about artificial intelligence, virtual reality, surveillance, privacy, love, death, criminal behavior, and politics, including: Have we given social media too much power over our lives? Could heaven really, one day, be a place on Earth? Should criminal justice and punishment be crowdsourced? What rights should a "cookie" have? Immersive, engaging, and experimental, *Black Mirror and Philosophy* navigates the intellectual landscape of Brooker's morality plays for the modern world, where humanity's greatest innovations and darkest instincts collide.
