**The Male Complaint** Simon James Copland, 2025-04-04 Inspired by leaders such as Andrew Tate and Jordan Peterson, the online Manosphere has exploded in recent years. Dedicated to anti-feminism, these communities have orchestrated online campaigns of misogynistic harassment, with some individuals going as far as committing violent terrorist attacks. Although the Manosphere has become a focus point of the media, researchers and governments alike, discussions tend to either oversensationalize the community or offer simplistic explanations for their existence. This book uses a mixture of historical and economic analysis, alongside actual Manosphere content, to delve deeper. With *The Male Complaint*, Simon James Copland explains how the Manosphere has developed and why it appeals to so many men. He argues that the Manosphere is not an

aberration, but is deeply embedded within mainstream, neoliberal, social structures. For a cohort of alienated men, the promise of community provides a space of understanding, connection and purpose. This insightful book dares to dig into the corners of incel communities and online spaces where misogyny thrives. It is essential reading for anyone who wants to understand, and do something about, this growing and worrying phenomenon.

Men Are Stupid Richard D. Wright, Jr. ,2019-10-22 If you've lost your ex, not all hope is lost! In fact, you have every chance in the world to get your former partner back. And this book is one of the essential keys to doing it. You may have been advised to follow your heart if you wish to have the person you love back at your side. While that's certainly good advice, it is not all you should do. At the end of the day, you need to think of reconciliation as a goal. If you have a goal, then the next thing you need is a plan and a strategy. That means planning, considering the pros and cons, and carefully weighing your options. However, with this book you're in the best position to get your ex back - and it starts the very moment you start reading and implementing what I teach you. This book will explain some very simple tactics that can give your ex a completely different view of the person you are and get her to fall in love with you all over again. But more importantly, I will help you determine exactly why you lost her in the first place, how to shift your focus from her onto you to break the energy attachment, and show you how to keep her this time by actually becoming a better man and being her best option. While it may seem completely counter-intuitive but focusing on yourself is the critical first step in getting your ex back and keeping her. This book will start from square one and lead you through all the steps to getting the woman you've been after, whether it's your ex or someone even better. We cover the essentials to developing yourself so that you are attractive to women. How to determine what type of woman is best for you. How to pull off the romance she so desperately wants. And most importantly to your success, how to build your own self-confidence so that you are comfortable doing anything. If you master the techniques presented in this book, you will have all of the tools necessary to make women find you irresistible. I titled the book "Men Are Stupid" because so many men spend so much time and energy trying to play games and manipulate women all in an effort to "trick" her and get her into bed. I said men are stupid because they fail to realize that women are incredible creatures and are just as, if not more, sexual and sensual than men. They want sex just as much as we do. You don't need to

play games or tricks. You just simply need to understand that women get turned on from the inside out. You must seduce her mind first, then everything else will open. The best way to find and maintain a relationship with a woman is to first understand how she operates, what turns her on, and how to keep her interested. Once you understand these key points you will unlock the secrets of seducing a woman. The first thing to do is to get inside her mind, and determine her inner workings. Once you truly understand how she works, everything else will fall into place. Good Luck in your journey!

**Lifestyle Gurus** Stephanie A. Baker, Chris Rojek, 2020-01-16 The rise of blogs and social media provide a public platform for people to share information online. This trend has facilitated an industry of self-appointed 'lifestyle gurus' who have become instrumental in the management of intimacy and social relations. Advice on health, wealth creation, relationships and well-being is rising to challenge the authority of experts and professionals. Pitched as 'authentic', 'accessible' and 'outside of the system', this information has produced an unprecedented sense of empowerment and sharing. However, new problems have arisen in its wake. In *Lifestyle Gurus*, Baker and Rojek explore how authority and influence are achieved online. They trace the rise of lifestyle influencers in the digital age, relating this development to the erosion of trust in the expert-professional power bloc. The moral contradictions of lifestyle websites are richly explored, demonstrating how these technologies encourage a preoccupation with the very commercial and corporate hierarchies they seek to challenge. A timely account of how lifestyle issues are being packaged and transacted in a wired-up world, this book is important reading for

students and scholars of media, communication, sociology and related disciplines.
