Cases and Materials on Contracts, 9th - CasebookPlus E. ALLAN. FARNSWORTH, Carol Sanger, Neil B. Cohen, Richard R. W. Brooks, Larry T. Garvin, 2019-07-19 This classic casebook, now in its 9th Edition, offers first-year students a solid and inviting introduction to contract law, recognizing both the English and American common law traditions and bringing them into our age of statutes, most particularly the Uniform Commercial Code. Like earlier editions, the 9th Edition features carefully-selected cases, well-tailored notes and problems, and authoritative textual discussions of major developments in current contract law. These include the meaning of assent and agreement (with particular focus on the online environment and in the context of mandatory arbitration clauses); attention to comparative and international approaches; and accessible discussion of theoretical underpinnings of contract doctrine, the importance of which remain a mainstay of this new edition. The casebook is ecumenical in its outlook, presenting a well-balanced approach that is usable by professors with a wide-range of theoretical outlooks and pedagogical styles. Cases are situated within a variety of disciplines--history, economics, philosophy, and ethics--and present the law in a variety of typical settings--commercial, familial, employment, consumer, real estate and so on. The 9th Edition will feel familiar yet fresh to current users and both exciting and comfortable to newcomers.

Contracts Friedrich Kessler, Grant Gilmore, Anthony T. Kronman, 1986 Classic contracts casebook by giants of contract law.

Contracts Edward Allan Farnsworth, 2008-01-01 Tracing the development of contract law in the English and American common law traditions, this casebook features authoritative discussion and notes and focuses on significant cases. It also provides opportunities for teachers to put before students the ethical responsibilities of attorneys and the consequences of neglecting such responsibilities. Highlights of the seventh edition include revised selections with more restatement material and a special section providing leading cases; updating with new cases; more sophisticated but still accessible material on the economics of contract law; and a revised introduction to provide for smoother transition into materials on damages.-- Publisher's website.

Contract H G Beale, W D Bishop, M P Furmston, 2008 This casebook on contract comprises a wide selection of cases and materials that illustrate the substantive law and places it in its legal and commercial context. It demonstrates how the rules

work both inside and outside the courtroom.

Contracts John Edward Murray (Jr.), 2015 This casebook is designed to meet the challenges of providing students with the most current and comprehensive analysis of modern contract law within the time constraints of the modern law school curricula. The Seventh Edition continues the tradition of providing cutting edge coverage of new and developing concepts in contract law, such as 'terms later' and the 'rolling contract' theory. Other major developments include the favored status of arbitration as the United States Supreme Court continues to emphasize unqualified support for its all-encompassing presence pursuant to the Federal Arbitration Act. While it includes the most current judicial and statutory developments, the enhanced use of problems interacting with text material allows students to gain a clear and sophisticated understanding of some of the more complex concepts in fewer classroom hours. Notwithstanding these innovations, the essential nature of the book has not changed. The overriding purpose is to provide the student with the maximum opportunity to develop a comprehensive understanding of contract law in the 21st century that will be sufficient for long-term career success. Contract law will continue to evolve. It is important to provide the student with a vehicle promoting a sophisticated understanding of the subject in a fashion that will allow the student to assimilate future developments with justifiable confidence.

Rogers and Young's the Law of Contracts: Cases and Materials - CasebookPlus JAMES S. ROGERS, Katharine G. Young, 2018-12-12 This book is designed for use in a single-semester, less than six-credit hours, contracts course. Drawing on the best features of the case method, it departs from the standard, reference-oriented texts, in order to provide concise, coherent, and teaching-oriented materials with a focus on principal cases, questions and notes. The goal of the book is to introduce the deep-seated topics of concern to the law of contracts with selective brevity, in choosing readings in classic and

contemporary cases, and UCC and restatement sources, interesting hypotheticals and theoretical and practical reflections. This book also updates the conventional presentation of the subject by providing a more substantive treatment of the law of restitution and of relevant international and comparative materials.
