*Handbook of Research on Cultivating Literacy in Diverse and Multilingual Classrooms* Neokleous, Georgios, Krulatz, Anna, Farrelly, Raichle, 2020-03-27 Literacy has traditionally been associated with the linguistic and functional ability to read and write. Although literacy, as a fundamental issue in education, has received abundant attention in the last few decades, most publications to date have focused on monolingual classrooms. Language teacher educators have a responsibility to prepare teachers to be culturally responsive and flexible so they can adapt to the range of settings and variety of learners they will encounter in their careers while also bravely questioning the assumptions they are encountering about multilingual literacy development and instruction. The Handbook of Research on Cultivating Literacy in Diverse and Multilingual Classrooms is an essential scholarly publication that explores the multifaceted nature of literacy development across the lifespan in a range of multilingual contexts. Recognizing that literacy instruction in contemporary language classrooms serving diverse student populations must go beyond developing reading and writing abilities, this book sets out to explore a

wide range of literacy dimensions. It offers unique perspectives through a critical reflection on issues related to power, ownership, identity, and the social construction of literacy in multilingual societies. As a resource for use in language teacher preparation programs globally, this book will provide a range of theoretical and practical perspectives while creating space for pre- and in-service teachers to grapple with the ideas in light of their respective contexts. The book will also provide valuable insights to instructional designers, curriculum developers, linguists, professionals, academicians, administrators, researchers, and students.

**Encyclopaedia of Midrash** Jacob Neusner, Alan Avery-Peck, 2022-11-07 The Encyclopedia of Midrash — Biblical Interpretation in Formative Judaism, provides a systematic account of biblical interpretation in Judaism, from well before the second century BCE through the end of the seventh century CE. While emphasizing the Rabbinic literature, it also covers interpretation of Scripture in a number of distinct canons, ranging from the Targumic literature and Dead Sea Scrolls to the New Testament and Church Fathers. The encyclopedia comprises fifty-six essays written by thirty scholars, representing the leading figures in the study of ancient Judaism and biblical interpretation in North America, Europe, and the State of Israel. Alongside a general introduction to Rabbinic Midrash and its traits, including the theoretical questions of definition, origins, theology, hermeneutics, genre-criticism, and language, the encyclopedia addresses specific topics of concern in the study of scriptural interpretation. How Rabbinic midrashic documents that focus on specific books of Scripture read those specific books, the theology expressed by Rabbinic midrashic compilations, and the historical context in which Rabbinic Midrash took shape all are treated. Beyond these central issues in understanding Rabbinic Midrash, the encyclopedia treats interpretations of Scripture that came to closure prior to, or outside of, the framework of Rabbinic Midrash: Hellenistic Jewish Midrash, Josephus, Pseudo-Philo, Jubilees, as well as to the New Testament, Karaite and Samaritan writings, and the Dead Sea Scrolls. The Encyclopedia of Midrash provides readers with a depth and breadth of treatment of Midrash unavailable in any other single source. Through the writings of top scholars in each of their fields, it sets out the current state of the question for each of the many topics discussed in its pages. The print edition is available as a set of two volumes (9789004141667).

**Monsters, Darkness, Imagination. On Horror in Children's Literature** Mirja Quix, 2018-06-20 Examination Thesis from the year 2016 in the subject Didactics for the subject English - Literature, Works, grade: 1,0, University of Cologne (Englisches Seminar), language: English, abstract: The aim of this work is to explore the nature of elements of horror in literature for children and what their effect on young readers can be. In addition, it will distinguish why elements of horror should be part of literature for child readers. The first part will have a look at different aspects of children's literature as such, starting with the history of its development and an attempt to define it as a genre, taking into consideration the relationship between child readers and adult writers. This part will supply a general overview of problems the genre's definition causes, as well as the discrepancies between the child reader's needs and what adults want children to require from literature. The second part then focuses on horror literature, including Gothic Horror and fairy tales, before looking at horror literature for children. In this part, a determination of what constitutes horror in literature is made before the terminology of children's literature is broadened to the field of horror. The third part of this work takes a closer look at aspects of horror in literature for children, analysing different elements like child fears, danger and monsters in selected books. It deconstructs what can be perceived as scary in books for young readers, how frightening elements are incorporated into literature for children, using well-known books from authors like Lewis Carroll, J. M. Barrie or Roald Dahl as representatives, while in the end looking at positive effects horror in literature for young readers has on a child.

**The Empty Cage** Carla Benedetti, 2005 In *The Empty Cage*, the highly regarded Italian literary critic Carla Benedetti explores the question: What is an author? Expanding Foucault's arguments beyond literary discourse into art, film, performance, and industrial design, Benedetti maintains that the author carries out a historical function, integrally connected to the modern system of artistic production and of aesthetic evaluation. In the modern period, she says, any object can be considered a work of art, on the supposition that it has been produced by an author. Her book, far from being an attempt to reclaim authorial intention as essential, proposes an original theory that shows how the author, in the form of author-images and even logos, has become an important link in the modern system of artistic communication.

**Literary Genres** Paul F. Kisak,2016-05-03 A literary genre is a category of literary composition. Genres may be determined by literary technique, tone, content, or even (as in the case of fiction) length. The distinctions between genres and categories are flexible and loosely defined, often with subgroups. The most general genres in literature are (in loose chronological order) epic, tragedy, comedy, and creative nonfiction. They can all be in the form of prose or poetry. Additionally, a genre such as satire, allegory or pastoral might appear in any of the above, not only as a subgenre, but as a mixture of genres. Finally, they are defined by the general cultural movement of the historical period in which they were composed. This book discusses over 40 forms of literary genres that have survived the test of time and considered classics in literature. Any writer or reader is served well to know and study these genres.
