Apocalyptic Visions in 21st Century Films Elizabeth A. Ford, Deborah C. Mitchell, 2018-07-11 The apocalypse on the big screen has expanded beyond the familiar end-of-the-world movies. Romantic comedies, teen adventures and even children's films frequently feature apocalyptic imagery--disintegrating cities, extreme weather events, extinctions, rogue military forces, epidemics, zombie armies and worlds colliding. Using sophisticated CGI effects, filmmakers are depicting the end of the world ever more stunningly. The authors explore the phenomenon of the cinematic apocalypse and its origins in both our anxieties and our real-world events, and they identify some flashes of hope in the desolate landscape.

Literary Studies and Human Flourishing James F. English, Heather Love, 2023 The *Humanities and Human Flourishing* series publishes edited volumes that explore the role of human flourishing in the central disciplines of the humanities, and whether and how the humanities can increase human happiness. The contributors to this volume of essays investigate the question: what do literary scholars contribute to social scientific research on human happiness and flourishing? Of all humanities disciplines, none is more resistant to the program of positive psychology or the prevailing

discourse of human flourishing than literary studies. The approach taken in this volume of essays is neither to gloss over that antagonism nor to launch a series of blasts against positive psychology and the happiness industry. Rather, the contributors reflect on how their literary research--work to which they are personally committed--might become part of an interdisciplinary conversation about human flourishing. The contributors' areas of research are wide ranging, covering literary aesthetics, book history, digital humanities, and reader reception, as well as the important inter-disciplines of gender and sexuality studies, disability studies, and black studies-fields in which issues of stigma and exclusion are paramount, and which have critiqued the discourse of human flourishing for its failure to grapple with structural inequality and human difference. Literary scholars are drawn more readily to the problematic than to the decidable, but by dwelling on the trouble spots in a field of inquiry still largely confined to the sciences, Literary Studies and Human Flourishing provides the groundwork for new and more productive forms of interdisciplinary collaboration and exchange.

Creating and Failing the 9/11 Generation Matthew Warshauer, 2024-07-12 Through a chronological and thematical approach, this book examines the terrorist attacks on September 11, 2001 and the effect on what President George W. Bush recognized as the 9/11 Generation. By providing cultural and generational context to 9/11 and its impact on the U.S., this book is the first study to ensure that the voices of this young generation are put at the forefront of analysis. Creating and Failing the 9/11 Generation answers "what happened" and "why" but, more importantly, it reveals the importance of broader themes and ideas such as foreign policy, security, patriotism, the U.S. military, and American democracy. The final chapter, 9/11 and the World, places the events in America on a global scale and demonstrates how 9/11 has remained, and will remain, significant to understanding how different places and cultures interact with each other in the modern world. Creating and Failing the 9/11 Generation is useful for all students who study U.S. foreign relations, terrorism, warfare, memory studies, and the history of modern America.

Understanding Genres in Comics Nicolas Labarre, 2020-04-09 This book offers a theoretical framework and numerous cases studies - from early comic books to contemporary graphic novels - to understand the uses of genres in comics. It begins with the assumption that genre is both frequently used and undertheorized in the medium. Drawing from existing genre theories, particularly in film studies, the book pays close attention to the cultural, commercial, and technological specificities of comics in order to ground its account of the dynamics of genre in the medium. While chronicling historical developments, including the way public discourses shaped the horror genre in comics in the 1950s and the genre-defining function of crossovers, the book also examines contemporary practices, such as the use of hashtags and their relations to genres in self-published online comics.

Romancing the Zombie Ashley Szanter, Jessica K. Richards, 2017-10-20 The zombie--popular culture's undead darling--shows no signs of stopping. But as it develops to suit changing audience tastes, its characteristics transform. This collection

of new essays examines the latest incarnation, the romantic zombie, a re-humanized monster we want to help, heal and connect with rather than destroy. The authors discuss our increasingly sympathetic view of the reanimated dead as more than physical bodies devoid of life and personality. Their essays cover a range of topics, including audience obsession with Apocalyptic love; the problem of a kinder, gentler undead; the millennial reinvention of the sexy zombie; and uncanny valley romance.
