The Foundation Center's Guide to Proposal Writing Jane C. Geever,1997 In the fifth edition of our essential Guide, author Jane C. Geever provides detailed instructions on preparing successful grant proposals. Incorporating the results of 40 interviews with grantmakers across the nation, the Guide reveals their priorities in reviewing submissions and provides insight into what makes a winning proposal. The Guide outlines the entire proposal-writing process: Pre-Proposal Planning Tips - This helps you decide when your nonprofit is ready to raise funds and determine how to best define your project. Components of the Proposal - Review actual cover letters, project descriptions, budgets, and examples of important follow-up communications with prospective donors. Guidance from Grantmakers - Interviews highlight new trends in grantmaking: preferred proposal formats, funder cultivation strategies, tips on re-submitting a rejected request, and on how to capture and sustain a grantmaker's interest. To illustrate key points, excerpts from successful grant proposals are inserted throughout the Guide. And a complete model proposal is included in the appendix. An updated bibliography features selected resources on proposal development, including web and print sources. A new chapter focuses on crafting an effective evaluation component, addressing the heightened interest in outcome-based assessment of funded projects. Book jacket.
