**The Carnivore Cookbook** Maria Emmerich, 2020-01-07 Keto meets carnivore in this revolutionary new book by revered cookbook author and low-carb pioneer Maria Emmerich. Did you know that our ancestors were apex predators who were even more carnivorous than hyenas and big cats? That was only about 30,000 years ago. But since then, our diets have drastically changed due to the invention of agriculture about 7,000 years ago and, within the last 100 years or so, the introduction of millions of food additives, the development of a year-round produce supply, and the hybridization of fruits and vegetables, making them higher in sugar and lower in nutrients. Carnivore Cookbook explores what our bodies were really designed to digest and gives compelling evidence that we were designed to be primarily meat-eaters. In this book, you will learn why all plants come with a downside. Antinutrients are chemicals and compounds that act as natural pesticides or defenses for the plants against being eaten. Maria explains how antinutrients can rob your body of minerals and other nutrients and lead to autoimmune issues and leaky gut. There is even a protocol for healing autoimmune issues called the Carnivore Autoimmune Protocol: a detailed system for stepping you through the various levels of carnivorous eating to find the point where your body responds best and is symptom free. You will also learn which foods are the highest in nutrient density to help your body heal. Carnivore Cookbook includes more than 100 tasty meat-focused recipes featuring innovative ways to add flavor and variety. There are even carnivore meal plans with grocery lists to make the diet easy to follow.

**The Protein-Sparing Modified Fast Method** Maria Emmerich, Craig Emmerich, 2022-04-05 Looking to accelerate your weight loss or break out of the diet plateau without losing lean mass? Bestselling authors Maria and Craig Emmerich bring the solution to you in their new book, The Protein-Sparing Modified Fast Method. A Protein-Sparing Modified Fast (PSMF) is a tool designed to kick-start rapid weight loss by minimizing carbs and fat while supplying the body with adequate protein. This approach mimics the rapid weight loss benefits of fasting while preventing the loss of lean mass. Essentially, you spare your body's protein (your muscle) while rapidly losing weight. PSMF leverages the protein-to-energy (P:E) ratio of foods to induce fast fat loss. It's an extremely effective way to improve insulin sensitivity and break stalls. In The Protein-Sparing Modified Fast Method, bestselling authors and low-carb advocates Craig and Maria Emmerich give you the science to support this method, along with recipes that are incredibly satiating even though they are very low in energy. You will be amazed at how good they taste, too! The book offers over 120 recipes from comforting breakfast dishes to family dinners to

snacks and sweet treats, covering a broad range of global flavors. They are as quick and easy to prepare as they are satisfying. Sample recipes include: • Soufflé Omelet with Ham and Chives • French Toast Porridge • Steak and Eggs • Dutch Baby Apple Pancakes • Basil Shrimp Ceviche • Grilled Pork Chops with Truffle Mustard • Chicken Fingers with Carolina BBQ Sauce
