**Judah D. Galinsky**

The Saturday Review of Politics, Literature, Science and Art ,1875

*Gift of Language* Alexander García Düttmann,2000-01-01 This text focuses on the relevance of the proper name in the conceptions of language and history that inform the thought of Adorno, Benjamin, Heidegger and Rosenzweig. Their interest in the proper name is because it does not simply operate as a conventional linguistic sign. A specific experience of the Jewish religious tradition (Adorno, Benjamin, Rosenzweig) and a vision of poetry resulting from the reading of Hölderlin (Heidegger) lead to the idea of an absolute singularity, it is a singularity that resists all conceptual identification and the proper name expresses this singularity in language. In this analysis, history is conceived as a movement that both betrays and tends towards the absolute singularity that manifests itself in the unsayable, i.e. in the name of God, or in poetical language. questions of gesture, translation and melancholia and the moment of apparition in the work of art are comprehensible within Dr Düttmann's discussion, which should be of interest to students of language, philosophy and theology.

**US Public Memory, Rhetoric, and the National Mall** Roger C. Aden,2018-04-26 US Public Memory, Rhetoric, and the National Mall examines “the nation’s front yard,” understanding it as both a public face the United States presents to the world and a site where its less apparent moral story is told. This book provides a uniquely thorough, interdisciplinary, and integrated examination of how the National Mall shares a moral story of the United States and, in so doing, reveals the soul of the nation. The contributors explore 11 different memorials, monuments, and museums found across the Mall, considering how each rhetorically remembers a key element of the nation’s past, what the rhetorical memory tells us about the nation’s soul, and how each site must thus be understood in relation to the commemorative landscape of the Mall.

*The London Quarterly Review* William Lonsdale Watkinson,William Theophilus Davison,1875

**The Monist** Paul Carus,1927 Vols. 2 and 5 include appendices.

Forensic Psychologists Casebook Laurence Alison,2013-07-23 This book aims to demonstrate how forensic psychology contributes to police investigations, providing practical information about the type of reports provided by psychologists and behavioural advisors, and set within a broader theoretical context. It asks the question 'What do practitioners actually do when they provide advice for the police and the courts and how do they do it?' The contributors to the book are all experts in

the field of offender profiling and behavioural investigative advice. The chapters provide valuable insights into particular case details, the ethical and legal consequences of advice, coverage of the relevant theoretical context, explanations for conclusions drawn, practical difficulties in preparing reports, potential pitfalls, and an account of how cases are resolved.

**Macmillan's Magazine** David Masson, George Grove, John Morley, Mowbray Walter Morris, 1897

**Theorizing Outdoor Recreation and Ecology** Sean Ryan, 2016-04-29 Deciding what user impacts are natural or unnatural has inspired much debate. Biophysically, moose cause similar kinds of soil and vegetation impacts as hikers. Yet moose are the sign of nature while hikers are the sign of damage. The field of outdoor recreation is beset with paradoxes, and this book presents a unique, alternative framework to address these dilemmas. Examining outdoor recreation through the lens of ecological theory, Ryan draws from theorists such as Foucault, Derrida and Latour. The book explores minimum impact strategies designed to protect and enhance ecological integrity, but that also require a disturbing amount of policing of users, which runs counter to the freedom users seek. Recent ecological theory suggests that outdoor recreation's view of nature as balanced when impacts are removed is outdated and incorrect. What is needed, and indeed Ryan presents, is a paradoxical and ecological view of humans as neither natural nor unnatural, a view that embraces some traces in nature.

*The Making of a Medieval Bestseller* Judah D. Galinsky, 2025-05-15 In 1277, Rabbi Isaac of Corbeil produced a concise work of accessible religious law. This handbook, 'Amudei Golah (Pillars of Exile), began as a list of religious commandments (mitzvot) meant to be recited weekly. It was divided into seven 'pillars', drawn primarily from the limbs of the human body and its activities (heart, hand, mouth, monetary transactions, etc), and dealt exclusively with laws relevant to Jews living in the Diaspora in medieval times. This handbook of religious law, written in Hebrew, became the most widespread book of its kind during the late Middle Ages within the various French- and German-speaking Jewish communities known as Ashkenaz. Nearly two hundred medieval copies of the work are found in public libraries and private collections today, an astounding number for a Hebrew work at the time. In *The Making of a Medieval Bestseller*, Judah Galinsky approaches his study in three parts. The first surveys the ideological and cultural reasons that Rabbi Isaac composed the work and describes how the book evolved over time. The second part traces the book's impressive circulation and analyzes the various reasons behind the book's success, suggesting that readers who were outside the scholarly class may have been key to the work's popularity. In the third part, Galinsky addresses the readers themselves, who ordered copies of the work from a scribe. Galinsky discerns the cultural profile of the patrons who commissioned the codex by paying attention to the books they requested to have copied alongside it, or its 'fellow travelers'. This study is a history of a medieval bestseller. It describes how it came into being, grew, and evolved, and also charts its circulation, explains its unique appeal, and depicts its readers.
