Carlo Crivelli R. W. Lightbown, Ronald Lightbown, 2004-01-01 Venetian artist Carlo Crivelli (c. 1430-1495) is a painter whose individuality of style and mastery of powerful line have fascinated many, but whose life and art have remained enigmatic. This absorbing book, drawing on extensive research in Venice and the Marches, the region of central Italy that Crivelli dominated artistically from 1468 until his death, examines his paintings in depth and traces the fundamental influences of the Vivarini, of Squarcione and Mantegna, and later of Flemish art. Ronald Lightbown, eminent historian of Italian Renaissance art, interweaves stylistic and iconographical analysis of Crivelli's work with historical and cultural background. The author uncovers the reasons that led patrons to choose the saints that figured in Crivelli's altarpieces, discusses the initiations of new cults and the devising of an iconography for them, and demonstrates Crivelli's independence

from clerical dictation in the symbolism of his still-life pictures.

Loca Patriciana: an indentification of localities, chiefly in Leinster, visited by saint Patrick and his assistant missionaries, and of some contemporary kings and chieftains With an essay on The three Patricks, Palladius, sen Patrick and Patrick Mac Calphurn, apostles of Ireland in the fifth century John Francis Shearman,1882

Becoming Neapolitan John A. Marino,2011-01-03 2011 Winner of the Phyllis Goodhart Gordan Book Prize of the Renaissance Society of America Naples in the sixteenth and seventeenth centuries managed to maintain a distinct social character while under Spanish rule. John A. Marino's study explores how the population of the city of Naples constructed their identity in the face of Spanish domination. As Western Europe's largest city, early modern Naples was a world unto itself. Its politics were decentralized and its neighborhoods diverse. Clergy, nobles, and commoners struggled to assert political and cultural power. Looking at these three groups, Marino unravels their complex interplay to show how such civic rituals as parades and festival days fostered a unified Neapolitan identity through the assimilation of Aragonese customs, Burgundian models, and Spanish governance. He discusses why the relationship between mythical and religious representations in ritual practices allowed Naples's inhabitants to identify themselves as citizens of an illustrious and powerful sovereignty and explains how this semblance of stability and harmony hid the city's political, cultural, and social fissures. In the process, Marino finds that being and becoming Neapolitan meant manipulating the city's rituals until their original content and meaning were lost. The consequent widening of divisions between rich and poor led Naples's vying castes to turn on one another as the Spanish monarchy weakened. Rich in source material and tightly integrated, this nuanced, synthetic overview of the disciplining of ritual life in early modern Naples digs deep into the construction of Neapolitan identity. Scholars of early modern Italy and of Italian and European history in general will find much to ponder in Marino's keen insights and compelling arguments.
