**An Empire Nowhere** Jeffrey Knapp,2023-04-28 What caused England's literary renaissance? One answer has been such unprecedented developments as the European discovery of America. Yet England in the sixteenth century was far from an expanding nation. Not only did the Tudors lose England's sole remaining possessions on the Continent and, thanks to the Reformation, grow spiritually divided from the Continent as well, but every one of their attempts to colonize the New World actually failed. Jeffrey Knapp accounts for this strange combination of literary expansion and national isolation by showing how the English made a virtue of their increasing insularity. Ranging across a wide array of literary and extraliterary

sources, Knapp argues that English poets rejected the worldly acquisitiveness of an empire like Spain's and took pride in England's material limitations as a sign of its spiritual strength. In the imaginary worlds of such fictions as *Utopia*, *The Faerie Queene*, and *The Tempest*, they sought a grander empire, founded on the otherworldly virtues of both England and poetry itself.
