To Whatever End Lindsey Frydman,2021-01-04 What if with every person you met, after just one touch, you have a vision of the last time you'll see each other? Ever. Normally, these visions are innocent—two friends just drifting apart, a random stranger that brushed past you then never crossed your path again. But not today. When I accidentally touch him, within only moments of our first meeting, I'm bombarded by visions of his death. And from what I can see, I'm the reason he dies. Now I just need to figure out why, and how to stop this from happening. Because not only am I to blame, but his very last words to me are...I love you.

Pawn's Gambit Timothy Zahn,2016-01-05 A collection of career-launching short fiction by #1 New York Times–bestselling author Timothy Zahn, including the Hugo Award–winning novella Cascade Point. Timothy Zahn shows an unparalleled mastership of science fiction in the fifteen tales gathered here. The Price of Survival features an alien ship that arrives in our solar system without hostile intentions but with a desperate need whose fulfillment could destroy humanity. The Giftie Gie Us tells the story of two lonely survivors who find love among the ruins of a post-apocalyptic United States. And in Pawn's Gambit, a human and his alien opponent face off over a game that will decide which one of them will return home. This collection also includes the Hugo Award–winning novella Cascade Point and nine other works of science fiction, post-apocalyptic drama, and humorous fantasy previously unpublished in book form. Timothy Zahn is the author of the #1 New York Times bestseller Star Wars: Heir to the Empire and has won multiple awards for his work. With nonstop action, suspenseful plots, and high-tech twists, the stories in Pawn's Gambit are science fiction at its best.

The Will of the Many Marianne Maeckelbergh,2009-09-07 Never before has the idea of democracy enjoyed the global dominance it holds today, but neoliberalism has left the practice of democracy in deep crisis. This book argues that the most

promising model for global democracy is not coming from traditional political parties or international institutions, but from the global networks of resistance to neoliberal economics, known collectively as the Alter-globalisation movement. Through extensive ethnography of decision-making practices within these movements, Maeckelbergh describes an alternative form of global democracy in the making. Perfect for activists and students of political anthropology, this powerful and enlightening book offers radical changes.

Endquote Marina Balina,Nancy Condee,Evgeniĭ Aleksandrovich Dobrenko,2000 Sots-art, the mock use of the Soviet ideological clichés of mass culture, originated in Soviet nonconformist art of the early 1970s. An original and provocative guide, Endquote: Sots-Art Literature and Soviet Grand Style examines the conceptual aspect of sots-art, sots-art poetry, and sots-art prose, and discusses where these still-vital intellectual currents may lead.

Sri Aurobindo at 150 Debidatta A. Mahapatra,2023-02-14 This book brings to focus one of the prominent 20th century Indian thinkers, Sri Aurobindo, by providing an overview of his philosophy on life and yoga, and by elucidating his thought in the context of contemporary society. This text is unique in approaching Sri Aurobindo as a problem solver and from a conflict resolution perspective, the latter being the author's expertise. Sri Aurobindo's contributions such as Ideal of Human Unity, Integral Yoga, Life Divine and his poetic vision as embodied in his epic poem, Savitri, are explored in-depth. The book explores these ideas to seek possible solutions to the current predicaments of human life and society. This monograph attracts not only students and researchers in the fields of philosophy, religion, yoga, political science, international politics, Indian thought, and conflict resolution, but also general interest readers.
