Puzzles and Essays from 'The Exchange' Charles R Anderson,2018-10-24 Who said that? When did that happen? Where the heck does that thing come from? Was that French, or what? What's that supposed to mean?For 35 years, librarians in the United States and other countries sent puzzles they could not solve locally to "The Exchange," a column for reference librarians appearing in RQ (and later, RUSQ), the official journal of the Reference and User Services Division of the ALA. Other readers often furnished the answers--sometimes years or even decades later! Puzzles and Essays from The Exchange organizes those perplexing questions and answers into a reader-friendly reference format, embellished with essays that appeared in the column over the last fifteen years of its publication.This unique collection of questions and answers that stumped librarians on four continents over a 35-year period comes complete with authoritative bibliographic citations. It also contains an extensive subject, person, and keyword index, providing easy access to the material.Packed with fascinating information, little-known trivia, and hard-to-find facts, Puzzles and Essays from The Exchange is a wonderful reference source, answering difficult questions about: the origins of common--and not-so-common--customs, like giving engagement rings, driving on the right or left side of the road, tying yellow ribbons around trees in memory of captives, leg shaving, visits from the "Tooth Fairy," and much, much more! the origins of words, phrases, and terms that don't, when taken literally, make much sense the origins of popular sayings--The grass is always greener; The whole nine yards; It ain't over until the fat lady sings; Close but no cigar; Going down the tube; Light at the end of the tunnel; Katy, bar the door; Goodbye, cruel world; etc. the sources of famous quotations--both spurious and real! the sources of poetry fragments and bits of verse that have become part of the popular lexicon hard-to-find biographical information--from George Washington Carver's many uses for the peanut and the sweet potato to the name of Paul Revere's horse to the truth about the "let them eat cake" story attributed to Marie Antoinette trivia and miscellany--how lullabies began; why a yawn is contagious when a sneeze is not; what the names of the monkeys in The Wizard of Oz were; why pigeons bob their heads when they walk; what the vital statistics of the Venus de Milo are; and much more! the history of "The Exchange" itself! Puzzles and Essays from The Exchange will also challenge you with a list of so-far unanswered questions, unidentified quotations, and popular sayings whose origins are still generally unknown. Perhaps you'll be the one to answer the riddles that stumped the editors and readers of "The Exchange!"

Four Complete Novels Trevanian,1981 **THE MAIN:** The Main is Montreal's teeming underworld, where the dark streets echo with cries in a dozen languages, with the quick footsteps of thieves and the whispers of prostitutes. It is a world where violence and brutality are a way of life. To the people of the Main, police lieutenant Claude LaPointe is judge and jury, father confessor and avenging angel. Montreal's police force has changed over time, but LaPointe has not. His commitment to justice is total, as is his devotion to the Main and its underworld community. But when a cold-blooded murderer invades LaPointe's territory, he is forced to examine his long-held beliefs and secrets and to confront his own loneliness and mortality. With a cast of unforgettable supporting characters and an unusual and remarkable hero, *The Main* is another gripping tale of death and danger, of action and mystery, by the incomparable Trevanian.

Faith, Reason, and Political Life Today Dale McConkey,2001-03-21 This rich and varied collection of essays addresses some of the most fundamental human questions through the lenses of philosophy, literature, religion, politics, and theology. Peter Augustine Lawler and Dale McConkey have fashioned an interdisciplinary consideration of such perennial and enduring issues as the relationship between nature and history, nature and grace, reason and revelation, classical philosophy and Christianity, modernity and postmodernity, repentance and self-limitation, and philosophy and politics. These tensions are explored through the works of such eminent thinkers as Aristotle, Augustine, and Tocqueville, but the contributors engage a wide variety of texts from popular culture, American literature-Flannery O'Connor receives notable attention-and social theory to create a remarkably comprehensive, if far from harmonious, introduction to political philosophy today.

Conspiracy Films Barna William Donovan,2014-01-10 For many years, conspiracy theories have been among the most popular story elements in Hollywood films. According to the conspiracy culture, Government, Big Business, the Church, even aliens--all of which, bundled together, comprise the ubiquitous Them--are concealing some of the biggest secrets in American and world history. From *The Manchurian Candidate* (1962) to *JFK* (1991), *The Matrix* (1999) to *The Da Vinci Code* (2006), this decade-by-decade history explores our fascination with paranoia. The work paints a vivid picture of several of the more prevalent conspiracy theories and the entertainment they have inspired, not only in theatrical films but also in such television

series as *The X-Files*, *Lost* and *V*.

Shibumi Trevanian, 2005-05-10 A classic spy novel from the bestselling author, Trevanian, about a westerner raised in Japan who becomes one of the world's most accomplished assassins. Nikolai Hel is the world's most wanted man. Born in Shanghai during the chaos of World War I, he is the son of an aristocratic Russian mother and a mysterious German father and is the protégé of a Japanese Go master. Hel survived the destruction of Hiroshima to emerge as the world's most artful lover and its most accomplished—and well-paid—assassin. Hel is a genius, a mystic, and a master of language and culture, and his secret is his determination to attain a rare kind of personal excellence, a state of effortless perfection known only as shibumi. Now living in an isolated mountain fortress with his exquisite mistress, Hel is unwillingly drawn back into the life he'd tried to leave behind when a beautiful young stranger arrives at his door, seeking help and refuge. It soon becomes clear that Hel is being tracked by his most sinister enemy—a supermonolith of international espionage known only as the Mother Company. The battle lines are drawn: ruthless power and corruption on one side, and on the other . . . shibumi.

Beyond Bond Wesley Britton, 2005-06-30 At a time when the methods and purposes of intelligence agencies are under a great deal of scrutiny, author Wesley Britton offers an unprecedented look at their fictional counterparts. In *Beyond Bond: Spies in Film and Fiction*, Britton traces the history of espionage in literature, film, and other media, demonstrating how the spy stories of the 1840s began cementing our popular conceptions of what spies do and how they do it. Considering sources from Graham Greene to Ian Fleming, Alfred Hitchcock to Tom Clancy, *Beyond Bond* looks at the tales that have intrigued readers and viewers over the decades. Included here are the propaganda films of World War II, the James Bond phenomenon, anti-communist spies of the Cold War era, and military espionage in the eighties and nineties. No previous book has considered this subject with such breadth, and Britton intertwines reality and fantasy in ways that illuminate both. He reveals how most themes and devices in the genre were established in the first years of the twentieth century, and also how they have been used quite differently from decade to decade, depending on the political concerns of the time. In all, *Beyond Bond* offers a timely and penetrating look at an intriguing world of fiction, one that sometimes, and in ever-fascinating ways, can seem all too real. The Eiger Sanction Trevanian,2005-05-10 Jonathan Hemlock lives in a renovated Gothic church on Long Island. He is an art professor, a mountain climber, and a mercenary, performing assassinations (i.e., sanctions) for money to augment his black-market art collection. Now Hemlock is being tricked into a hazardous assignment that involves an attempt to scale one of the most treacherous mountain peaks in the Swiss Alps, the Eiger. In a breathtakingly suspenseful story that is part thriller and part satire, the author traces Hemlock's spine-tingling adventures, introducing a cast of intriguing characters—villains, traitors, beautiful women—into the highly charged atmosphere of danger. The accumulating threads of suspicion, accusation, and evidence gradually knit themselves into a bizarre and death-defying climax in this exciting, entertaining novel that will keep readers on the edge of their seats until the last absorbing page.
