**A Historical Research on the Lives of the 12 Shia Imams** Mahdi Maghrebi, PhD,2020-12-10 After the demise of Prophet Muhammad (PBUH), the Muslims were divided regarding whom they should follow as their political and religious leader. The Sunnis followed the Prophet's companions whilst the Shias followed the 12 Holy Imams chosen by God. The Shia Imams were from the lineage of Prophet Muhammad (PBUH) from his only surviving daughter, Lady Fatimah (SA). Successive Shia Imams lived amongst the Muslims for generations and guided them to the true Islamic teachings of the Prophet. All of the Shia Imams were respected by the Muslims for their spirituality, divine knowledge, and being the progeny of the Prophet. The Imams were a symbol of resistance against the injustice and oppression of the Umayyads and the Abbasids. As a result, the Imams endured many calamities and hardships. They were harassed, imprisoned, and martyred by the Umayyad and the Abbasid caliphs. This book reviews the lives of these 12 Holy Imams and provides an overview of their religious, social, and political achievements. Please visit our website at [www.12shiaimams.com](http://www.12shiaimams.com) to find more about the Shia Imams including our recent videos.

**Handbook of Research on Islamic Social Finance and Economic Recovery After a Global Health Crisis** Kassim, Salina,Othman, Anwar Hasan Abdullah,Haron, Razali,2021-04-30 Social financial reporting as an economic tool presents the firm as a socio-economic unit with empowered social capital to enable a sustainable economic solution, particularly in response to the COVID-19 pandemic. Islamic social finance (ISF) is a corporate social responsibility initiative in the form of humanitarian and socio-development programs by Islamic financial institutions and Shariah-compliant corporations. ISF is applied through various methods and tools that structure based on Islamic Sharia Law. For example, Islamic social finance tools would either be philanthropic, involving activities such as zakat (obligatory alms-giving), Sadaqah (voluntary alms-giving/charity), and waqf (endowment) or ta'awun (cooperation-based activities), which include Qardh al-hasan (benevolent loan) and kafala (guarantee). Thus, Islamic social finance instruments play a vital role in alleviating poverty and addressing socio-economic issues such as illiteracy, unemployment, malnutrition, and health issues. As such, integrated ISF reporting can empower sustainable economic development and lead to recovery. The Handbook of Research on Islamic Social Finance and Economic Recovery After a Global Health Crisis provides insights on the role of Islamic social finance in supporting and facilitating economic recovery in the post-COVID-19 era as well as reducing poverty and addressing the challenges of socio-

economic problems such as education, unemployment, malnutrition, and health issues. This book is ideally intended for practitioners, stakeholders, researchers, academicians, and students who are interested in improving their understanding on the role of Islamic social finance theoretically and empirically in solving the issue of poverty and developing excellent funds management to achieve economic empowerment with better environmental sustainability.

**Reconstituting the Curriculum** M. R. Islam, Gary M. Zatzman, Jaan S. Islam, 2013-11-13 Based on groundbreaking new ideas, this treatise signals a return to a rebuilding and reshaping of the curriculum as the primary tool for education. This book presents a new definition of curriculum and what it should consist of, with a view toward creating a more ethical, educated, and thinking person. Rather than treating students as products for society, this approach returns to a view of the curriculum as a tool for educating students to reason through problems, be bold in creating new solutions, and contribute to a more vibrant, just world. The university curriculum introduced in the post-Renaissance era, dominated by doctrinal philosophy, is based on learning or skill development, suitable for creating a learned society that would eventually serve the establishment. This curriculum has been promoted as the only form suitable for the modern education system. It has introduced a tremendous amount of tangible advancement in all fields of the structured education system. These tangible gains are often promoted as knowledge. This has created confusion between education (acquiring knowledge) and learning, training or skill development. This book seeks to clarify the difference between these two divergent views of education. It has been shown that the current curriculum is not conducive to increasing a student's knowledge because it is based on consolidating preconceived ideas that have been either passed on from previous generations or gained through personal experience. In most cases, this mode of cognition will not create a pathway for gaining knowledge that brings one closer to discovery. The term education, on the other hand, is always meant to be a process of bringing forth one's inherent qualities and unique traits, necessary and sufficient for increasing one's knowledge.
