Sophia Moestrup

Semi-Presidentialism and Democracy Sophia Moestrup, 2011-02-01 Explores the effect of semi-presidentialism on newly-democratising countries. In recent years semi-presidentialism - the situation where a constitution makes provision for both a directly elected president and a prime minister who is responsible to the legislature - has become the regime type of choice for many countries.

German Resistance to Hitler Peter Hoffmann, 1988 Hoffmann examines the growing recognition by some Germans in the 1930s of the malign nature of the Nazi regime, the ways in which these people became involved in the resistance, and the views of those who staked their lives in the struggle against tyranny and murder.

Literature and Film in the Third Reich Karl-Heinz Schoeps, 2004 This book is the first survey in English of literature and film in Nazi Germany. It treats not only works sympathetic to National Socialism, but also works of the so-called Inner Emigration, of the resistance, and those written in prisons and concentration camps. Much of this literature is not easily accessible in German, and not available at all in English translation. Historical and ideological context is provided in chapters

covering influential works of the time such as Alfred Rosenberg's *The Myth of the Twentieth Century* and Houston Stewart Chamberlain's *The Foundations of the Nineteenth Century*. Schoeps also analyzes Nazi cultural policies, fascist histories of literature, and the role of German studies and Germanists in the Nazi movement. A major section of the book is devoted to film, then a relatively new medium of communication whose propaganda value was clearly recognized by Goebbels, the minister for propaganda and president of the Reich's Chamber of Culture. One of the most interesting areas of research in recent years is the relationship between Hitler's cultural commissars, in particular Goebbels, and the literature and film production of the Nazi years. This book is based on the revised and expanded second German edition, *Literatur im Dritten Reich* (1933-1945), but has again been revised and expanded, especially the chapter on film and Nazi policies toward the film industry. The chapter on cultural policies has also been expanded to include Himmler's efforts to meddle in this area. New also are sections dealing with Jewish entertainers in concentration camps (for example, Kurt Gerron) and activities of the Jewish Cultural League. Karl-Heinz Schoeps is professor of German at the University of Illinois at Urbana-Champaign.

The History of German Lutheran Congregations in England, 1900-1950 Friedeborg L. Müller, 1987 Between 1900 and 1950, the development of German congregations in England was characterised by sudden unprecedented changes. Growth was followed by decline, marginalisation by expansion. The situation during and after World War I contrasted sharply with that during and after World War II. Being drawn into the German Church struggle German congregations in England experienced the conflict between nationalistic and ecumenical attitudes. They were challenged in particular by Bonhoeffer's theological stance and became a meeting-place for different cultural, political and spiritual traditions. World War II saw a new emphasis on the ministry among German-speaking refugees, as well as among civilian internees and military prisoners.

Twelve Years with Hitler Hans Quassowski, 1999 The original cadre of the later Waffen-SS was formed in March 1933 as the SS Headquarters Guard Berlin. From the first 117 volunteers emerged more than fifty senior SS officers, all of whom received high decorations for bravery in the 38 Waffen-SS divisions that were formed later.
