Muslim Communities in North America Yvonne Yazbeck Haddad, Jane I. Smith, 1994-01-01 This book provides a look at Muslim life and institutions forming in North America. It considers the range of Islamic life in North America with its different racial-ethnic and cultural identities, customs, and religious orientations. Issues of acculturation, ethnicity, orthodoxy, and the changing roles of women are brought into focus. The authors provide insight into the lives of recent immigrants who are asking what is Islamically appropriate in a non-Muslim environment. Contrasts are drawn between Sunni and Shi'i groups, and attention is given to the activities of some Sufi organizations. The growing Islamic community among African-American Muslims is examined, including the followers of Warith Deen Muhammed and the sectarians identified with black power, such as the Nation of Islam, Darul Islam, and the Five Percenters. The authors document the challenges and issues that American Muslims face, such as prejudice and racism; pressure from overseas Muslims; dress and education; the influence of Islamic revivalism on the development of the community in this country; and the maintenance of Muslim identity amidst the pressure for assimilation.

The Righteous Way: Golden Jubilee Edition (Part 2) Starmel Allah, 2016-01-15 *The Righteous Way: Golden Jubilee Edition (Part 2)*, commemorates the 50th Year Anniversary of the Five Percent Nation along with an Interview with Lord Jamar Allah on the Five Percent Nation influence on Hip-Hop. It includes a photo gallery of dynamic photos taken by renowned photographers Khalik Allah and Jamel Shabazz.

African Americans and Criminal Justice Delores D. Jones-Brown, Beverly D. Frazier, Marvie Brooks, 2014-07-15 Does justice exist for Blacks in America? This comprehensive compilation of essays documents the historical and contemporary impact of the law and criminal justice system on people of African ancestry in the United States. *African Americans and Criminal Justice: An Encyclopedia* comprises descriptive essays documenting the ways in which people of African descent have been victimized by oppressive laws enacted by local, state, and federal authorities in the United States. The entries also describe how Blacks became disproportionately represented in national crime statistics, largely through their efforts to resist legalized oppression in early American history, and present biographies of famous and infamous Black criminal suspects and victims throughout early American history and in contemporary times. Providing coverage of law and criminal justice practices from the precolonial period, including the introduction of African slaves, up to practices in modern-day America,

this encyclopedia presents a frank and comprehensive view of how Americans of African descent have come to be viewed as synonymous with criminality. This book represents an essential learning resource for all American citizens, regardless of race or age.

The True History of Allah and His 5% The Gods & Earths Who Were There!, 2019-03-16 This book is based on the true history of Allah the Father and His great Nation of Gods and Earths known as the Five Percenters. This is the greatest story that was never told by the Gods and the Earths during their younger years with Allah the Father from the early 1960s up until the time of his assassination on June 13, 1969. This was a time of struggle for the Black Man, Woman, and Child (the Universal Family). This was the time of the Big Five, who were: Allah the Father, who brought about the Nation of Gods and Earths known as the Five Percenters; the Honorable Elijah Muhammad, who was the last and greatest messenger of Allah, also the leader and teacher of the Black Muslims; Malcolm X of the new arrival; Dr. Martin Luther King, Jr., the civil rights leader; and the Black Panther Party on the East and West coasts. These five groups were called the Big Five, because they had the attention of every Black Man, Woman, and Child in the wilderness of North America and other parts of our planet. There was a host of other Black groups as well. This was a time when the Five Percenter's teachings were being taught/spoken so plain and simple that even a child could understand. Black people were on the rise, and it was a time for a change—for Black Man, Woman, and Child to take their place on earth. Peace!

Understanding African American Rhetoric Ronald L. Jackson II, Elaine B. Richardson, 2014-05-22 This is an extraordinarily well-balanced collection of essays focused on varied expressions of African American Rhetoric; it also is a critical antidote to a preoccupation with Western Rhetoric as the arbiter of what counts for effective rhetoric. Rather than impose Western terminology on African and African American rhetoric, the essays in this volume seek to illumine rhetoric from within its own cultural expression, thereby creating an understanding grounded in the culture's values. The consequence is a richly detailed and well-researched set of essays. The contribution of African American rhetoric can no longer be rendered invisible through neglect of its tradition. The essays in this volume neither seek to displace Western Rhetoric, nor function as an uncritical paen to Afrocentricity and Africology. This volume is both timely and essential; timely in advancing a better understanding of

the richly textured history that is expressed through African American discourse, and essential as a counterpoint to the hegemonic influence of Greek and Roman rhetoric as the origin of rhetorical theory and practice. Written in the spirit of a critical rhetoric, this collection eschews traditional focus on public address and instead offers a rich array of texts, in musical and other forms, that address publics.
