**Vedic Astrology-Volume III** Ram Babu Sao, 2025-09-29 In this book, "Vedic Astrology-Volume III", you will establish a solid foundation of the Vedic Astrology. Vedic Astrology is an extremely valuable tool that you can use personally or for the benefit of others. Before you learn how to read a horoscope chart you need to know how the universe is arranged (astronomy), what the planets mean and how the signs influence the planets that live within them. In addition, you will understand the special house meanings and how the moon's nodes are formed. The nodes unique to Vedic Astrology are known as Rahu and Ketu. Vedic Astrology (Jyotish) is much more than mere fortune-telling; it's a comprehensive science that explores the influence of celestial bodies on human life. In this book, we will delve into the fascinating world of Jyotish, exploring its history, core principles, techniques, and its significance in contemporary society. At its core, Jyotish operates on a set of fundamental principles that help practitioners interpret the positions of celestial bodies. We'll explore these key principles in depth. Jyotish is as old as the Vedas themselves, and its origins can be traced back to the Vedic period. Here, we'll explore the historical backdrop of Jyotish and its evolution over the centuries. Predictive astrology in Jyotish involves forecasting future events and trends in an individual's life. We'll explore the techniques and methods employed for predictions.

1.1 Vedic Roots: The Vedas, the oldest sacred texts of Hinduism, contain references to the study of celestial bodies and their significance. Jyotish finds its foundation in the Vedanga Jyotisha, one of the Vedangas or limbs of Vedic knowledge, dedicated to the science of astronomy and timekeeping.

1.2 Yugas and Cosmic Cycles: Jyotish encompasses the concept of Yugas, where each age has a distinct astrological influence on human affairs. We'll discuss the four Yugas and their implications.

1.3 Ancient Scholars: The contributions of ancient scholars, such as Varahamihira, Aryabhata, and Parashara, played a pivotal role in shaping Jyotish into a refined system of astrological knowledge.

1.4 Transmission through the Ages: The knowledge of Jyotish was passed down through the guru-shishya (teacher-student) tradition. This section will explore how Jyotish was preserved and transmitted through the ages.

1.5 The Zodiac: Jyotish uses the sidereal zodiac, which aligns with the actual positions of stars and planets. We'll explain the significance of this choice and compare it to the tropical zodiac used in Western astrology.

1.6 Planetary Positions: The positions of planets in different signs and houses are central to Jyotish. We'll delve into the meanings and influences of the nine primary planets used in Jyotish, including the Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Rahu, and Ketu. Each planet carries unique symbolism and governs specific

aspects of life.

**Horary for Beginners** S.C. Kursija, This highly specialized astrological application is ancient. It deals with specific questions and methods of answering these questions based on Tajik Yogas formed in the horoscope of that time at which the question was asked. The basis of the horary chart is the time when your question is put to the astrologer, and from this a map of the sky is erected. Personal details, such as your date, place and time of birth, are not needed and so, for those who do not have this information, horary provides a method of dealing with problems. Horary astrology has its own strict system. The position of and aspects to the moon are of prime importance. The person asking the question, or querent, is represented by the ruler of the first house in the horoscope formed at the time of question. Planetary aspects are considered more important than in other branches of astrology (although it is the planetary rulers of the houses in question that take precedent in analysis). Typically, a horary chart is read by first assigning the thing asked about, the quesited, to a particular house in the chart. For instance, asking Where is my lost dog? would be represented by the sixth house, as it is the house that governs small animals (traditionally, smaller than a goat). Whenever anyone who does not have his/her birth details approaches the Astrologer, in such case the astrologer makes his horary chart and answers his/her queries. Horary astrology is based on the notion that the question and intensity to find its answer arises in the mind as a result of the divine command and at that particular moment, the planetary locations in the cosmos remains favorable. Sometimes a native has the queries related to his/her relatives, friends or neighbors even without having their birth-details. Horary Astrology has the adequate and significant tools based on divine principles to answer even such questions. Horary Astrology has the ability to answer any question whether it is regarding the lost articles, return of the person from abroad or any place, the time to get cure of a sick person etc. This book gives vivid knowledge of not only the basic tenets of Horary Astrology but also explains the related planets, signs and houses for a specific query related to a particular subject. This book has specially been designed for the

students of All India Federation of Astrologers' Societies but the other students interested to know this subject can also get benefitted equally with the study of this book.
