Studies in Law, Politics and Society Austin Sarat, 2011-06-14 This volume *Studies in Law, Politics and Society* contains a symposium on indigenous peoples in Latin America. It examines the ways rights are negotiated between those groups and the states in which they live.

Religious Freedom and the Australian Constitution Luke Beck, 2018-03-19 This book examines the origins of Australia's constitutional religious freedom provision. It explores, on the one hand, the political activities and motives of religious leaders seeking to give the Australian Constitution a religious character and, on the other, the political activities and motives of a religious minority seeking to prevent the Australian Constitution having a religious character. The book also interrogates the argument advanced at the Federal Convention in favour of section 116, dealing with separation of religion and government, and argues that until now scholars and courts have misunderstood that argument. The book casts new light to show how the origins of the provision lead to section 116 being conceptualised as a safeguard against religious intolerance on the part of the Commonwealth. Written in an accessible style, the work has potential to influence the development of constitutional doctrine by the High Court through its challenge of historical assumptions on which the High Court's current doctrine is based. Given the ongoing political debates concerning the interaction of discrimination law and religious freedom, the book will be of interest to academics and policy-makers working in the areas of law and religion, constitutional law and comparative law.

A First Nations Voice in the Australian Constitution Shireen Morris, 2020-08-06 This book makes the legal and political case for Indigenous constitutional recognition through a constitutionally guaranteed First Nations voice, as advocated by the historic Uluru Statement from the Heart. It argues that a constitutional amendment to empower Indigenous peoples with a fairer say in laws and policies made about them and their rights, is both constitutionally congruent and politically achievable. A First Nations voice is deeply in keeping with the culture, design and philosophy of Australia's federal Constitution, as well as the long history of Indigenous advocacy for greater empowerment and self-determination in their affairs. Morris explores the historical, political, theoretical and international contexts underpinning the contemporary debate, before delving into the constitutional detail to craft a compelling case for change.
