Guide to Vanessa Van Edwards's Captivate by Instaread Instaread,2017-05-24

Captivate Vanessa Van Edwards,2017-04-25 Do you feel awkward at networking events? Do you wonder what your date really thinks of you? Do you wish you could decode people? You need to learn the science of people. As a human behavior hacker, Vanessa Van Edwards created a research lab to study the hidden forces that drive us. And she's cracked the code. In *Captivate*, she shares shortcuts, systems, and secrets for taking charge of your interactions at work, at home, and in any social situation. These aren't the people skills you learned in school. This is the first comprehensive, science backed, real life manual on how to captivate anyone—and a completely new approach to building connections. Just like knowing the formulas to use in a chemistry lab, or the right programming language to build an app, *Captivate* provides simple ways to solve people problems. You'll learn, for example... · How to work a room: Every party, networking event, and social situation has a predictable map. Discover the sweet spot for making the most connections. · How to read faces: It's easier than you think to speed-read facial expressions and use them to predict people's emotions. · How to talk to anyone: Every conversation can be memorable—once you learn how certain words generate the pleasure hormone dopamine in listeners. When you understand the laws of human behavior, your influence, impact, and income will increase significantly. What's more, you will improve your interpersonal intelligence, make a killer first impression, and build rapport quickly and authentically in any situation—negotiations, interviews, parties, and pitches. You'll never interact the same way again.

My Sociology Rosalind Gottfried,2018-12-17 *My Sociology* reconceptualizes intro sociology for the changing demographics in today's higher education environment. Concise and student-focused, *My Sociology* captures students' attention with engaging stories and a focus on non-dominant populations. Rather than introducing students to theory and history at the beginning of the text, the book integrates the necessary information throughout to keep students engaged.

Let's Talk About Loneliness Simone Heng,2023-06-27 Winner of a silver Nautilus Book Award 2024 Finalist in the International Book Awards 2024 The true antidote to loneliness, this book will teach you the secret to building meaningful relationships and the importance of authentic connections in a lonely world. Is it possible to have hundreds of followers on social media but still feel isolated? To live in a city of millions of people but find yourself alone? No one really wants to admit it, but the answer is certainly 'yes'. So, let's talk about loneliness. Human connection specialist Simone Heng knows a lot

about being lonely. She left an enviable career and social life to move back to her family home to care for her mother. All alone in a house filled with memories but devoid of people, she was faced with the realization that human connection is one of our most essential needs. There's a global loneliness epidemic. Every one of us has experienced feeling lonely, even if we don't realize it. The modern world has changed how we live and the 'village' environment with spontaneous connection has been replaced by remote work and contrived relationships. Most importantly, the old stereotypes of what loneliness looks like no longer hold true — in a world where technology has made us more 'connected' than ever before, people of all ages are feeling alone. Simone shares her journey to understanding the value of human connection and explains how to distinguish authentic relationships from fake substitutes. This definitive book on loneliness shows us how to build meaningful relationships with those that matter the most, forge new friendships, and create the genuine connections we all crave.

Cues Vanessa Van Edwards, 2022 It's not enough to have great ideas. You also need to know how to communicate them. What makes someone charismatic? Why do some people captivate a room, while others have trouble managing a small meeting? What makes some ideas spread, while other good ones fall by the wayside? Cues - the tiny signals we send to others 24/7 through our body language, facial expressions, word choices and vocal inflection - have a massive impact on how we, and our ideas, come across. Our cues can either enhance our message or undermine it. In this entertaining and accessible guide to the hidden language of cues, Vanessa Van Edwards teaches you how to convey power, trust, leadership, likability and charisma in every interaction. You'll learn: - Which vocal cues make you sound more confident - Which body language cues assert, 'I'm a leader, and here's why you should join me' - Which verbal cues to use in pitches, branding and emails to increase trust (and generate excitement about interacting with you) - Which visual cues you are sending in your profile pictures, clothing and professional brand Whether you're pitching an investment, negotiating a job offer or having a tough conversation with a colleague, Cues can help you improve your relationships, express empathy and create meaningful connections with lasting impact. 'A must-have guide to becoming an unstoppable force' - Mel Robbins 'Packed with invaluable strategies for maximizing your message, Van Edwards' energy will inspire you to become the best possible version of yourself' - Nir Eyal
