Análisis y traducción del texto económico inglés-español Isabel Pizarro Sánchez, 2010-12 ¿Te interesa la traducción económica? ¿Quieres traducir textos económicos y no sabes cómo? ¿Encuentras dificultades al traducir textos económicos? A pesar de llevar años aprendiendo inglés y de tener un buen conocimiento de la cultura y lengua inglesa, sin embargo, te cuesta traducir textos económicos como memorias anuales, informes, cartas, correos electrónicos, balances de situación, etc. El problema radica en el desconocimiento de un buen método de análisis y documentación que facilite el proceso de traducción. Por ello, esta obra introduce de forma sencilla los principales conceptos ligados al campo de la traducción económica y presenta una metodología completa del trabajo de traducción aplicable a cualquier texto económico, metodología que se completa con un análisis de los errores y las dificultades más comunes en este campo. El libro está dirigido a todos aquellos que necesitan traducir textos económicos por motivos académicos o profesionales, por lo que resulta especialmente útil no sólo para alumnos y profesionales de la traducción económica, sino también para especialistas del ámbito económico y financiero. La obra utiliza un lenguaje sencillo y de fácil comprensión, tanto para los iniciados en el campo de la traducción como para los no expertos en temas lingüísticos, y está organizada en bloques temáticos, lo que facilita la consulta en función de las necesidades del lector. Además, incluye una amplia descripción de las principales herramientas traductológicas y numerosos enlaces a diccionarios y glosarios especializados en los distintos campos de la economía: finanzas, banca, marketing, comercio, contabilidad, etc. Lo que la convierte en una herramienta rigurosa, actualizada y de gran utilidad tanto para el profesional como para el traductor novel.

e-Lexicography Pedro A. Fuertes-Olivera,Henning Bergenholtz,2011-08-18 This book looks at current research and future directions in e-lexicography. Online dictionaries and reference tools are increasingly prevalent in a digitized and internet-led era in language study that has embraced computational linguistics. This book responds with theoretical and practical analysis of key topics, from a global range of contributors. Since COBUILD in the 1980s, lexicographers have found it essential to engage with and utilize electronic computational tools. Internet dictionaries, online reference tools and even search engine optimization demand a knowledge of electronic lexicography and force a reassessment of the field. This volume looks at, amongst other topics: • Polyfunctional versus monofunctional dictionary tools • Developing theories of lexicography for electronic mediums • Distinguishing between the database and the dictionary • Online dictionaries not as data repositories but as sophisticated search engines This volume will appeal to scholars in lexicography and to practicing lexicographers.

La presunción de inexistencia de las operaciones amparadas en comprobantes fiscales Comisión Fiscal Regional Centro-Occidente,Javier Elliott Olmedo Castillo,2019 El uso de los medios electrónicos ha modificado la vida del ser humano de

manera sustancial en los ámbitos sociales, educativo, profesional y, además, ha permitido impulsar el mundo de los negocios de una manera exponencial. En consecuencia, el cumplimiento de las obligaciones fiscales también se ha visto influenciado por ellos facilitándolo de cierta manera, pero por otra parte ha permitido que las autoridades fiscales, al hacer uso de estos medios, aumenten su capacidad de fiscalización a niveles impensables en el pasado. Uno de los usos de los medios electrónicos en el cumplimiento de obligaciones fiscales es el de emitir comprobantes fiscales por las operaciones que se realicen, lo cual ha permitido a la autoridad contar con la información actualizada de cada operación que es llevada a su correspondiente comprobante fiscal al momento de ser emitido este; la autoridad recibe información de quién emite, quién recibe, en qué consiste el bien enajenado o servicio prestado, el importe de la operación, los impuestos que causa, y más. Se pensaría que tener tal control debería haber desalentado la "comercialización de comprobantes fiscales" sin operaciones de fondo, sin embargo, a pesar de los muchos esfuerzos de las autoridades por detectar, investigar y desalentar este tipo de operaciones, parece que este mercado sigue siendo multimillonario, lo que tiene repercusiones económicas importantes en la recaudación tributaria en el Estado mexicano. Con la intención de facultar a las autoridades de un procedimiento más ágil que le permitiera detectar y fiscalizar este tipo de operaciones, se crea el artículo 69- B del Código Fiscal de la Federación, procedimiento que permite a la autoridad presumir la inexistencia de las operaciones que están amparadas por los comprobantes fiscales emitidos por contribuyentes que se ubiquen en el supuesto establecido por dicha disposición y trasladar al contribuyente la carga de probar la existencia de la misma. En su momento se pensó que esta disposición afectaría solo a aquellos contribuyentes que se involucran en este tipo de prácticas, sin embargo, en la realidad se ha visto que, por diversas razones, ha impactado a todo tipo de contribuyentes y con la reforma de noviembre 2019 a la normatividad penal.

Diccionario bibliográfico de la metalexicografía del español Ignacio Ahumada Lara, 2006 Cuando en 1998 iniciábamos nuestra andadura bibliográfica sobre la metalexicografía del español, el equipo de investigadores adscritos al Seminario de Lexicografía Hispánica no imaginábamos que pudiéramos llegar a presentar un tercer tomo del Diccionario bibliográfico de la metalexicografía del español. 2006-2010 (DBME3). El proyecto de entonces, de pretensiones modestas, consistía en recopilar solo la producción bibliográfica de los dos años de vigencia que transcurrían entre las convocatorias bienales del Seminario de Lexicografía Hispánica (1991-2003). El refrendo de financiación recibido por parte del Plan Nacional de I+D+i (2000-2003) para ejecutar el primer tomo de este proyecto: DBME1 (orígenes-año 2000) fue el mejor reconocimiento que pudiéramos obtener a nuestro trabajo de documentación y bibliografía. La Dirección General de Universidades e Investigación de la Comunidad de Madrid ratificaba con su apoyo económico en 2006 la buena dirección de nuestro proyecto: DBME2 (2001-2005). Cuatro años más tarde volvíamos a contar con el apoyo y la financiación del Plan Nacional de I+D+i (2008-2011): DBME3 (2006-2010). Las fuentes con las que se ha trabajado para la recopilación bibliográfica incorporada al DBME3, al igual que en los dos entregas anteriores, responden a los siguientes epígrafes: (1) repertorios bibliográficos, (2) obras colectivas, (3) publicaciones periódicas, (4) reuniones científicas, (5) homenajes, (6) monografías y recopilatorios, (7) historias de la lexicografía, (8) tesis doctorales/licenciatura, (9) prólogos metalexicográficos y (10) varia. Todo ello sin limitación de área geográfica.

Theory and Practice of Specialised Online Dictionaries Pedro A. Fuertes-Olivera, Sven Tarp, 2014-09-23 This book is the first comprehensive monograph on the Function Theory of Lexicography, which originated at the Aarhus School of Business (Aarhus University). Function Theory considers dictionaries to be tools that are constructed for assisting specific users with punctual needs in specific usage situations, e.g. communicative-oriented situations and cognitive-oriented situations. The book's main focus is on defending the independent academic status of lexicography and its corollary: The process of designing, compiling and updating (specialised) online dictionaries needs a theoretical framework that addresses general and specific aspects. The former are common to all types of information tools, the latter are mainly dependent on the media for which the information tool is constructed and their specific target users. This books offers both aspects and moves from the highest level of abstraction to very detailed aspects of lexicographic work, e.g. how to convert an originally-conceived

polyfunctional online dictionary into several monofunctional usage-based ones. The book illustrates that the theory and the methodology currently used by advocates of the Function Theory of Lexicography offers better results than other approaches and therefore makes its case for proposing the Function Theory for terminological/terminographical work.

La traducción especializada Francisca Suau Jiménez,2010 Presentación del editor: Este libro aborda la traducción especializada desde los parámetros del género, registro y metadiscurso, de los cuales hace un recorrido teórico para aplicarlo a los géneros y cibergéneros más comunes del campo económico-empresarial. Analiza las necesidades comunicativas de las empresas e instituciones y se proponen los géneros y cibergéneros que derivan de éstas. Asimismo se describen las características del lenguaje del Business English y del Español de los Negocios. Se ofrecen claves y estrategias útiles para el análisis lingüístico previo y necesario en la traducción de los textos económico-empresariales, ofreciendo numerosos ejemplos prácticos y su traducción. El trabajo parte de estudios y publicaciones anteriores (Suau Jiménez, 1998; 2006) que abordan la traducción especializada desde el punto de vista del género y del registro. Sin embargo, incorpora una nueva dimensión, la del metadiscurso, que se basa en el desarrollo de la función interpersonal de Halliday (1978, 1964) o tenor, y que posteriormente han desarrollado otros autores (Crismore y Farnsworth, 1990; Hyland y Tse, 2004). Este punto de vista es totalmente innovador en su aplicación a la traducción especializada inglés-español y viene avalado por investigaciones realizadas en los últimos años. El libro va dirigido tanto a estudiosos de esta área de la lingüística aplicada, como a traductores y estudiantes de traducción.
