Jews In The Roman World Michael Grant,2011-12-30 In describing the triangular relationship among the Jews, the Romans and the Greeks, Michael Grant treats one of the most significant themes in world history. Unlike almost all the other subject nations of the Roman empire, the Jews have survived and have maintained a religious and cultural identity that is substantially unchanged. They provide a unique bridge with the ancient world and can bring us into peculiarly close and intimate contact with life in the Roman empire. This book embraces the period in which the Jewish religion assumed virtually its final form, and in which Jews launched their two heroic, but disastrous revolts against Roman rule. This was, moreover, the time when Judaism gave birth to Christianity. Within a century after the death of Jesus, his followers had become completely independent of Judaism. Michael Grant describes the grandeur of the great multiracial Roman empire, beneath whose rule these stirring and unique developments took place.

Mind the Gap Peter Kappeler,Joan Silk,2009-11-09 This volume features a collection of essays by primatologists, anthropologists, biologists, and psychologists who offer some answers to the question of what makes us human, i. e. , what is the nature and width of the gap that separates us from other primates? The chapters of this volume summarize the latest research on core aspects of behavioral and cognitive traits that make humans such unusual animals. All contributors adopt an explicitly comparative approach, which is based on the premise that comparative studies of our closest biological relatives, the nonhuman primates, provide the logical foundation for identifying human univ- sals as well as evidence for evolutionary continuity in our social behavior. Each of the chapters in this volume provides comparative analyses of relevant data from primates and humans, or pairs of chapters examine the same topic from a human or primatological perspective, respectively. Together, they cover six broad topics that are relevant to identifying potential human behavioral universals. Family and social organization. Predation pressure is thought to be the main force favoring group-living in primates, but there is great diversity in the size and structure of social groups across the primate order. Research on the behavioral ecology of primates and other animals has revealed that the distribution of males and females in space and time can be explained by sex-speci?c adaptations that are sensitive to factors that limit their ?tness: access to resources for females and access to potential mates for males.

Blood of the Caesars Stephen Dando-Collins,2008-02-01 Could the killing of Germanicus Julius Caesar—the grandson of Mark Antony, adopted son of the emperor Tiberius, father of Caligula, and grandfather of Nero—while the Roman Empire was still in its infancy have been the root cause of the empire's collapse more than four centuries later? This brilliant investigation of Germanicus Caesar's death and its aftermath is both a compelling history and first-class murder mystery with a plot twist Agatha Christie would envy.

Power and Propaganda in the Large Imperial Cameos of the Early Roman Empire Julia C. Fischer,2024-04-10 This study examines the five extant large Imperial cameos of the Early Roman Empire as a coherent whole, revealing that these gemstones were a referential group with complex interrelationships. Power and Propaganda in the Large Imperial Cameos of the Early Roman Empire offers a feminist theory that explains why large Imperial cameos were in dialogue and why the medium appears with Octavian and disappears by the Flavian dynasty: female Imperial family members commissioned them to advance their husbands and sons. This volume is an introduction to large Imperial cameos and reveals their importance for the understanding of Roman art and iconography and the implications of its theorized Imperial female patronage. The book will be of interest to scholars working in art history, classics, and archaeology.

World Saviors and Messiahs of the Roman Empire, 28 Bce-135 Ce Milo Kearney,James V. Zeitz,2009 The first half of the book examines the past history of the contributing cultures in order to understand why this phenomenon occurred at this time and place. It reviews the expectations or prophecies of a coming World Savior in the Zoroastrian, Mithraic, Jewish, and Greco-Roman communities. Prophecies (actual or perceived) which dated the appearance of such a Savior are considered. The second half of the book looks at the acclaimed Roman, Jewish, Samaritan, and Greek Saviors of the Soterial Age itself. The question of why Jesus' followers eventually prevailed over the others is addressed, and the phenomenon is placed in a universal perspective with a review of soterial expectations in early religions around the globe. The book concludes with the impact of the soterial movement on the Roman Empire and later Western World.
