Female Rebellion in Young Adult Dystopian Fiction Sara K. Day, Miranda A. Green-Barteet, Amy L. Montz, 2016-04-15

Responding to the increasingly powerful presence of dystopian literature for young adults, this volume focuses on novels featuring a female protagonist who contends with societal and governmental threats at the same time that she is navigating the treacherous waters of young adulthood. The contributors relate the liminal nature of the female protagonist to liminality as a unifying feature of dystopian literature, literature for and about young women, and cultural expectations of adolescent womanhood. Divided into three sections, the collection investigates cultural assumptions and expectations of adolescent women, considers the various means of resistance and rebellion made available to and explored by female protagonists, and examines how the adolescent female protagonist is situated with respect to the groups and environments that surround her. In a series of thought-provoking essays on a wide range of writers that includes Libba Bray, Scott Westerfeld, Tahereh Mafi, Veronica Roth, Marissa Meyer, Ally Condie, and Suzanne Collins, the collection makes a convincing case for how this rebellious figure interrogates the competing constructions of adolescent womanhood in late-twentieth- and early twenty-first-century culture.

**Contemporary Dystopian Fiction for Young Adults** Balaka Basu, Katherine R. Broad, Carrie Hintz, 2013-05-02 Winner of the Children's Literature Association Edited Book Award From the jaded, wired teenagers of M.T. Anderson's *Feed* to the spirited young rebels of Suzanne Collins' *The Hunger Games* trilogy, the protagonists of Young Adult dystopias are introducing a new generation of readers to the pleasures and challenges of dystopian imaginings. As the dark universes of YA dystopias continue to flood the market, *Contemporary Dystopian Fiction for Young Adults: Brave New Teenagers* offers a critical evaluation of the literary and political potentials of this widespread publishing phenomenon. With its capacity to frighten and warn, dystopian writing powerfully engages with our pressing global concerns: liberty and self-determination, environmental destruction and looming catastrophe, questions of identity and justice, and the increasingly fragile boundaries between technology and the self. When directed at young readers, these dystopian warnings are distilled into exciting adventures with gripping plots and accessible messages that may have the potential to motivate a generation on the cusp of adulthood. This collection enacts a lively debate about the goals and efficacy of YA dystopias, with three major areas of contention: do these texts reinscribe an old didacticism or offer an exciting new frontier in children's literature? Do their

political critiques represent conservative or radical ideologies? And finally, are these novels high-minded attempts to educate the young or simply bids to cash in on a formula for commercial success? This collection represents a prismatic and evolving understanding of the genre, illuminating its relevance to children's literature and our wider culture.

**Concepts of Nature in Young Adult Dystopian Fiction. Suzanne Collins' The Hunger Games Series** Lisa Kubatzki, 2018-02-26 Bachelorarbeit aus dem Jahr 2016 im Fachbereich Amerikanistik - Literatur, Note: 2,0, Universität Rostock (Anglistik/Amerikanistik), Sprache: Deutsch, Abstract: The aim of this paper is to show that nature and ecocritical topics are a significant aspect of young adult dystopian novels, since they are supposed to remind the readers that to respect nature and live in harmony with it is an important feature of their lives and a key to happiness. Contemporary dystopian young adult fiction is also supposed to remind the readership that exploiting or manipulating nature or avoiding environmental issues – next to the other features of our today's society that are criticized in young adult dystopian novels, like reality TV, the restriction of individual freedom and constant surveillance by the government – will lead to the destruction of the world as they know it and the development of a dystopian world. An oppressed society, a young hero and extreme settings – young adult dystopia is the rising star of genres in literature and film in today's society. Because it raises questions about the world we live in and creates rebellious and authentic protagonists, it appears to be charming for the adolescent readership. Throughout the last years, especially The Hunger Games by Suzanne Collins has been extremely successful. Starting with the books, over the films, to little Mockingjay pins in the shops, Collins's trilogy took over the world of teenagers. The story is about a teenage girl, named Katniss, who lives in one of the poorest parts of her country, Panem. Every year there are the annual Hunger Games where teenagers are forced to fight each other to death until there is only one winner. After Katniss survives the 74th Hunger Games by tricking the government, a rebellion of the oppressed people of Panem starts and Katniss becomes the symbol of it. Nature and the manipulation of it, as well as the benefits of knowing nature, play a major role in The Hunger Games series since Katniss has a special relationship to the natural world which helps her to survive in the Games, and later, is the anchor to her sanity. The Hunger Games series shows that the strict separation of people from nature and the creation of a fake, artificial nature that is manipulated by an oppressing power is a central way to control people by taking away a source of sustenance and a place of freedom. The nature outside of the

districts of Panem symbolizes freedom, refuge and escape, while the artificial 'nature' in the arena causes distance and fear of nature for the citizens of Panem, as it is the only access to nature they are allowed to have.

**The Order and the Other** Joseph W. Campbell, 2019-10-08 In the mid- to late 2000s, the United States witnessed a boom in dystopian novels and films intended for young audiences. At that time, many literary critics, journalists, and educators grouped dystopian literature together with science fiction, leading to possible misunderstandings of the unique history, aspects, and functions of science fiction and dystopian genres. Though texts within these two genres may share similar settings, plot devices, and characters, each genre's value is different because they do distinctively different sociocritical work in relation to the culture that produces them. In *The Order and the Other: Young Adult Dystopian Literature and Science Fiction*, author Joseph W. Campbell distinguishes the two genres, explains the function of each, and outlines the different impact each has upon readers. Campbell analyzes such works as Lois Lowry's *The Giver* and James Dashner's *The Maze Runner*, placing dystopian works into the larger context of literary history. He asserts both dystopian literature and science fiction differently empower and manipulate readers, encouraging them to look critically at the way they are taught to encounter those who are different from them and how to recognize and work within or against the power structures around them. In doing so, Campbell demonstrates the necessity of both genres.

**Broadening Critical Boundaries in Children's and Young Adult Literature and Culture** Amie A. Doughty, 2018-10-30 This collection of essays explores a wealth of topics in children's and young adult (YA) literature and culture. The contributions include an examination of the Watchbird cartoons by Munro Leaf and their attempts to teach morals and manners; an ethnographic study about the role of public youth librarians; and an exploration of the role popular video games can play in the secondary classroom. Other topics investigated here encompass the presentation of environmentalism in Hayao Miyazaki's films, psychological analyses, and the role of race, gender, and culture in children's and YA literature.

**Teaching Young Adult Literature Today** Judith A. Hayn, Jeffrey S. Kaplan, 2012-03-15 Teaching Young Adult Literature Today introduces the reader to what is current and relevant in the plethora of good books available for adolescents. More importantly, literary experts illustrate how teachers everywhere can help their students become lifelong readers by simply introducing them to great reads—smart, insightful, and engaging books that are specifically written for adolescents. Hayn, Kaplan, and their contributors address a wide range of topics: how to avoid common obstacles to using YAL; selecting quality YAL for classrooms while balancing these with curriculum requirements; engaging disenfranchised readers; pairing YAL with technology as an innovative way to teach curriculum standards across all content areas. Contributors also discuss more theoretical subjects, such as the absence of lesbian, gay, bisexual, transgender and questioning (LGBTQ) young adult literature in secondary classrooms; and contemporary YAL that responds to the changing expectations of digital generation readers who want to blur the boundaries between page and screen.

*Child as Citizen* Giuliana Fenech, 2025-08-15 Contributions by Daniela Brockdorff, Nina Christensen, Jill Coste, Katrin Dautel, Justyna Deszcz-Tryhubczak, Giuliana Fenech, Naomi Hamer, Irena Barbara Kalla, Anne Klomberg, Sonali Kulkarni, Elizabeth Leach-Leung, Ann Marie Murnaghan, Emily Murphy, Emilie Owens, Nicola Parker, Patrycja Poniatowska, Meg Rosoff, and Farriba Schulz *Child as Citizen: Agency and Activism in Children's Literature and Culture* addresses children's and young adult agency and activism across literature and culture, demonstrating how these forces influence child citizenship. Contributors to this volume highlight the agentic voices and activist practices that are growing across all spheres of young people's lives, as well as the challenges to active citizenship that children growing up in unjust sociopolitical contexts face. The volume is interdisciplinary and draws on the sociology of childhood, children's literature studies, youth culture studies, media, technology, and cultural studies, and Anthropocene, ecofeminist, and disability studies. Agency occurs in and around literature and storytelling, and this collection establishes how it is always influenced by identity as well as geopolitics; how it is both subjective and collective; how it is cultural and embodied; and how, like citizenship, it is not a static status but rather an ongoing negotiation. In this collection, contributors invite readers to consider agency as a system of relations between children themselves, between children and adults, children and institutions, and children and nation-states, as well as between children and the nonhuman. This book reviews the interconnectedness between these relationships and attempts to untangle some of the complications that emerge.
