Nigerian Capitalism Sayre P. Schatz,2024-06-14 Following a surge in oil revenues in the 1970s, Nigeria became one of Africa's most rapidly developing nations. In *Nigerian Capitalism*, Sayre P. Schatz analyzes the country's political economy, assessing its position and proposing a development plan for the final quarter of the twentieth century. Referring to Nigeria's economic development strategy as nurture-capitalism, Sayre contrasts the role of private enterprise, which is expected to foster growth of the productive sector of the economy, with the government's role, which is to nurture the capitalist sector generally and to favor indigenous enterprise in particular. The author examines the development of Nigerian nurture-capitalism from 1949 to the launching of and early experience with the Third Plan (1975-80), with emphasis on the post-civil war 1970s. He then turns to an intensive study of indigenous business and possible impediments to the development of Nigerian private enterprise, analyzing the role of capital availability, entrepreneurship, and the economic environment. Sayre demonstrates that there are substantial divergences between private profitability and social utility and that there is an abundance of socially useful investment possibilities for indigenous businessmen. The author next turns to a study of the government business-assistance programs, and their economic, administrative, and political characteristics. Finally, he

assesses the sources of successful investment and makes a case for enhanced socially useful investments. Comparing “pragmatic developmentalism,” “pragmatic socialism,” and “thoroughgoing socialism,” he proposes a pragmatic orientation that postpones ideological decisions as long as practicable. This title is part of UC Press's Voices Revived program, which commemorates University of California Press’s mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. The Foreign Policy and Intervention Behavior of Africa's Middle Powers Olumuyiwa Babatunde Amao, 2023-12-21 Based on a meta-theoretical approach and insights derived from analytic eclecticism as a comparative instrument, Olumuyiwa Babatunde Amao assesses Nigeria and South Africa's foreign policy and intervention behavior in Africa, with a special focus on the conflict episodes in Sierra Leone (1991-1998) and the Democratic Republic of Congo (DRC) (1997-2005). *The Foreign Policy and Intervention Behavior of Africa's Middle Powers: An Analytic Eclecticism Approach* explores the relative merits of structural realism and social constructivism in explaining Nigeria and South Africa's motives and intervention behavior, and why more than one theoretical perspective is required to sufficiently analyze the complexity of their intervention decisions and behavior. It demonstrates the overlapping nexus between conflict intervention, structural constraints, relative power pursuit, and the dynamics of regional complexes. Amao demonstrates how Nigeria and South Africa's relative power positions, identities as African actors, de-colonization and anti-apartheid struggles, and the existing values and bonds that their contiguous states share play a crucial role in their intervention behavior. Using Sierra Leone and the DRC as case studies, this book illustrates the advantage of applying a multi-perspective eclectic approach to foreign policy analysis and provides an alternative to the theoretical turf wars that are all too prevalent in the discipline of international relations.
