Professional English Dr. Julius Irundayasamy, Dr. Nand Gopal, Dr. N. Suguna, Dr. N. Prathiba Lakshmi ,2025-10-01 Professional English focuses on developing effective communication skills required in professional and workplace environments. It emphasizes reading, writing, speaking, and listening skills tailored to corporate, academic, and technical

contexts. The subject covers business correspondence, report writing, presentations, email etiquette, technical writing, and interpersonal communication. Mastery of professional English enables individuals to communicate clearly, confidently, and appropriately, fostering better collaboration, productivity, and career growth.

New Interchange Intro Bundle Jack C. Richards, Jonathan Hull, Susan Proctor, 2001-01-01 New Interchange is a multi-level series for adult and young adult learners of English from the beginning to the high-intermediate level. The bundle consists of the Student's Book and the Student's Audio Program. Intro is the introductory level of the New Interchange series. The Student's Book, Intro, is designed for beginning students needing a thorough, slow-paced presentation of basic functions, grammar structures, and vocabulary. Intro is based on the principle that low-level learning does not equal low-level thinking. Topics such as clothing and fashion, sports and hobbies, food and diet, and holidays and customs are presented in unique ways using interesting real-life information. Beautiful color photographs and illustrations facilitate the teaching of new vocabulary. Every bundle contains the Student's Audio CD, with all the recorded material from the Class Audio Program, with the exception of the Listening Activities. As with the other levels of New Interchange, a complete set of ancillaries, including a video program, is available to make classes interesting and productive.

Data Science with Semantic Technologies Archana Patel, Narayan C. Debnath, 2023-06-20 As data is an important asset for any organization, it is essential to apply semantic technologies in data science to fulfill the need of any organization. This first volume of a two-volume handbook set provides a roadmap for new trends and future developments of data science with semantic technologies. Data Science with Semantic Technologies: New Trends and Future Developments highlights how data science enables the user to create intelligence through these technologies. In addition, this book offers the answers to various questions such as: Can semantic technologies facilitate data science? Which type of data science problems can be tackled by semantic technologies? How can data scientists benefit from these technologies? What is the role of semantic technologies in data science? What is the current progress and future of data science with semantic technologies? Which types of problems require the immediate attention of the researchers? What should be the vision 2030 for data science? This volume can serve as an important guide toward applications of data science with semantic technologies for the upcoming generation and, thus, it is a unique resource for scholars, researchers, professionals, and practitioners in this field.
