Building Blocks for Tobacco Control Vera da Costa e Silva, 2004-10-21 The idea for this handbook arose from an awareness that whilst various WHO documents called for developing national capacity for tobacco control, there was not comprehensive guide to the development of such a capacity. This book is thus, essentially, a pragmatic how to manual. The Introduction presents the evolving definition of national capacity, identifies the types of capacities needed for effective tobacco control and outlines the key features of building capacity. Section 1 provides a descriptive overview of the tobacco epidemic. It looks at tobacco as a risk factor, presenting its health, social and economic costs; the global strategies of the tobacco industry to counteract public health measures; the scientific evidence for effective tobacco control interventions; and the WHO FCTC as a global solution to an epidemic with prominent politico-legal and socio-cultural attributes. Section 2 focuses on the fundamental capacities necessary to empower countries to control the tobacco epidemic successfully. These chapters apply the lessons learned from the experiences of different countries and offer advice and suggestions to enable countries to put the theories of tobacco control into practice.

Alternative Food Networks for Sustainable, Just, Resilient and Productive Food Systems José Luis Vicente-Vicente, Lukas Egli, Felix Zoll, Simona Zollet, 2024-10-01 There is growing evidence that the current globalised agri-food system is neither sustainable nor resilient. It is responsible for around one third of the global GHG emissions and is a major driver of biodiversity loss. Furthermore, its structure and distribution mode do not provide food security for all and foster socio-economic inequalities between different parts of the planet. Consequently, an increasing number of scientists and members of the civil society are demanding a radical transformation of agri-food systems. The creation of alternative food networks (AFNs) represent a possible first step towards agri-food system transformation. AFNs can incorporate local, indigenous and innovative knowledge and bring together a diversity of actors to connect food production and consumption and create new practices and relationships around food. The creation of AFNs, and ultimately of Alternative Food Systems (AFS), should involve different actors, from farmers to social movements, from policymakers to scientists. AFNs have the

potential to contribute to a transformation towards sustainable, just, resilient and productive food systems, but even though they have increased in numbers and organisational forms in recent years, they still remain in a niche. Consequently, scientific evidence of their performance is still limited. This research topic will contribute to a comprehensive, multi-scalar and critical (e.g. including potential counter-effects) understanding of the current state and future potential of AFNs. It will address multiple aspects, ranging from social, economic and environmental aspects to productivity, participation and justice. Moreover, it will highlight the role of governance, power relations and institutions, as well as barriers and ways forward to promote AFNs and their role in food system transformation.

Kingdom of Ash Sarah J. Maas, 2018-10-23 Together they will rise. Or together they will fall. The epic finale to the complete, #1 bestselling Throne of Glass series by Sarah J. Maas, author of the Court of Thorns and Roses (ACOTAR) series. Aelin Galathynius has vowed to save her people, but at a tremendous cost. Locked in an iron coffin by the Queen of the Fae, Aelin must draw upon her fiery will as she endures months of torture. The knowledge that yielding to Maeve will doom those she loves keeps her from breaking, but her resolve unravels with each passing day. With Aelin captured, her friends and allies have scattered. Some bonds grow even deeper, while others will be severed forever. But as destinies weave together at last, all must stand together if Erilea is to have any hope of salvation. Sarah J. Maas's #1 bestselling Throne of Glass series draws to an explosive conclusion as Aelin fights for her life, her people, and the promise of a better world. Other books in this series include: Throne of Glass Crown of Midnight Heir of Fire Queen of Shadows Empire of Storms Tower of Dawn The Assassin's Blade (prequel novellas)

Building Teacher Quality in India Alexander W. Wiseman, Preeti Kumar, 2021-08-04 India has one of the largest student populations in the world; the quality of teaching is blamed for the poor performance by Indian students on internationally-comparative assessments. By analyzing various measures of teacher quality, this book provides a framework for policymakers to further improve teacher quality in India.

Por amor de Sião Franklin Ferreira, 2022-07-05 Após uma pesquisa de fôlego, Franklin Ferreira concluiu que a tradição evangélica no século 20 se inclinou tanto para a missão da igreja no mundo gentílico que acabou abandonando a sua missão entre os perdidos de Israel. Este livro não apenas é fruto dessa pesquisa, mas também é um manifesto do autor pela reconsideração que os cristãos do século 21 devem fazer sobre o povo judeu. Para ajudar na reconsideração, o autor levanta as principais questões a serem respondidas: O que os cristãos reformados — que amavam a língua hebraica, os judeus e a terra de Israel — acreditavam entre os séculos 16 e 19 sobre a grande conversão dos judeus ao Messias antes da sua segunda vinda? O que os cristãos reformados pensavam sobre o retorno dos judeus para sua terra ancestral nesse mesmo período? Quais as implicações para as discussões sobre o antissemitismo na cristandade, o sionismo cristão e judaico, a eleição de Israel e o reino de Deus? Por amor de Sião é um convite para que os cristãos examinem as bases de sua fé e

interajam com outras perspectivas teológicas a fim de encontrar formas legítimas e eficazes de levar o evangelho do único Messias aos judeus que ainda não o encontraram.
