The man-eater of Gévaudan Giovanni Todaro, 2014-01-01 This is a true story, happened in France in the XVIII century. It talks about the hunt, lasted for a good four years, against a mysterious anthropophagous beast, which plunged into terror the poor people of the Gévaudan and of the Auvergne, today Lozère. This is the story of the men in charge of killing what was simply nicknamed the Beast, of the strategies which were carried out, of the beatings that were made even with dozens of thousands of men and many packs of dogs, of the long posts in the wild mountains of that area with such a terrible climate, so described: Nine months of winter, three months of hell. In spite of the soldiers and the famous hunters sent by the King of France, the monstrous beast continued committing slaughters most of all of women and children, attacking hundreds of times and making at least 131 victims, many of which were devoured. Only after years of terror the Beast was finally killed and they were able to ascertain which species it belonged to.

Managing the Return of the Wild Michaela Fenske, Bernhard Tschofen, 2020-07-08 This book explores attitudes and strategies towards the return of the wild in times of ecological crisis, focusing on wolves in Europe. The contributions from a variety of disciplines discuss human encounters with wolves, engaging with traditional narratives and contemporary conflicts. Covering a range of geographical areas, the case studies featured demonstrate the tremendous impact of the return of the wolf in European societies. Wolves are a keystone species that exemplify humanity's relation to what is called nature and their return generates powerful debates about what 'nature' actually is and how much it is needed or should be permitted to exist. The book considers the return of the wild as a catalyst for fundamental socio-biological changes of the

world within human societies, and the various responses of humans to wolves demonstrate both our potential and limitations when it comes to multispecies communities and negotiating societal change. Managing the Return of the Wild will be relevant to a broad audience interested in discussions of social and ecological conflict today, including scholars from multispecies studies and diverse disciplines such as biology, forestry management and folklore studies.

The Beast of Gévaudan Pierre Pourcher, Derek Brockis, 2006 La Bête du Gévaudan was a real wolf-like monster living in the Auvergne from 1764 to 1767. She killed about one hundred people. Prowling Catholic pre-Revolutionary France, she spread terror among the aristocrats and peasants of the beautiful Auvergne countryside. Her story beats most mystery novels in false trails, horror and atmosphere. The big difference is La Bête was real, not fiction, and leaves for ever the unanswered question, What was she? All efforts to stop her failed and she became infamous throughout France. The king - Louis XV - took a personal interest in her activities and how to destroy her. Many explanations - alien, prehistoric beast, mutant etc. - were put forward at the time and during the two centuries since but none have ever been widely accepted. A mass of evidence remains that La Bête did exist and was not just a legend. Compared with other monster mysteries she is unique, leaving graves, witnessed parish records, and archives of official documents, many of them included in this book, proving her real and guilty beyond doubt. Read Pourcher's book carefully and draw your own conclusions. Even if you arrive at a conventional solution to the mystery, doubts might linger as darkness falls. If twigs crack, don't whistle.

La bête du Gévaudan José Féron-Romano, Jean-Louis Henriot, Christian Broutin, 2008-08-27 En 1763, le Gévaudan est ravagé par la terreur : une bête mystérieuse égorge et tue femmes, enfants et vieillards. Un homme dit avoir vu la Bête : pour lui, ce ne peut être qu'un singe ou un loup-garou. Un autre prétend qu'elle a la gueule semblable à celle d'un lion. Qui croire ? Le roi en personne envoie alors son Grand Louvetier et ses soldats pour vaincre le monstre.

France: Languedoc-Roussillon Dana Facaros and Michael Pauls, Jane Falkner, 2025-10-27 New from Bradt is France: Languedoc-Roussillon, which celebrates in intimate detail the Occitanie, a charming region full of easily accessible contrasts in southwest France. Three local residents share their extensive, in-depth knowledge of the area, covering both well-known attractions and off-the-beaten-path delights. Expertly researched and with exemplary attention to detail, engaging writing and great ideas blend to furnish the perfect travel companion. From exploring Cathar castles to drifting down the Canal du Midi, from a bustling city break in vibrant Montpellier, Perpignan or Narbonne to an entrancing wander around the UNESCO World Heritage Site of Carcassonne, Languedoc-Roussillon offers ample destinations for anyone looking for a slick cosmopolitan adventure, with the endless delights of regional food, wine and culture thrown in liberally around every corner. If slow travel, sustainable tourism and the call of the wild are more your scene, you'll find plenty to enchant you, from looking for wolves and bison, or going white-water rafting, to hiking along 'Grand Randonnée' routes through the mountains up to Mount Canigou at 2,784 m altitude. For tranquillity, wide-open spaces and dark skies, you can't beat Parc National des Cévennes, whose nearly 3,000 square kilometres stretch across the sparsely populated Lozère and Gard regions. An almost endless choice of beaches is yours for the taking along the Mediterranean coast, backed by one of France's richest wine regions, which provides opportunities to taste and discover a true French treasure. Those so-minded can follow in the footsteps of Robert Louis Stevenson and his donkey on the Chemin de Stevenson, trace the Da Vinci Code trail, which celebrates locations associated with Dan Brown's novel, or visit Perpignan train station – deemed the "centre of the universe" by Salvador Dalí. Roman history and architecture abound: the Pont du Gard aqueduct is France's most-visited ancient monument, the exceptional Maison Carrée is a 1st-century BC temple, and Nîmes boasts the best preserved of Europe's 70 remaining Roman amphitheatres. Or you can go boating or canoeing along the Canal du Midi, the world's oldest navigable canal. Whatever your interests, and however you travel, Bradt's new guide to France: Languedoc-Roussillon has you covered.

Mysterious Creatures George M. Eberhart, 2002-12-17 A comprehensive guide to cryptozoology—the quest to identify animals that have not been officially catalogued by science and to place these unknown animals into their proper zoological categories. In this fascinating two-volume encyclopedia, author George M. Eberhart provides a comprehensive catalog of nearly 1,000 cryptids—unknown animals usually reported through eyewitness accounts and not yet described by science. Cryptids are the stuff of folklore, hoaxes, and genuine scientific breakthroughs. There are 400 now-classified cryptids once considered either extinct or pure fantasy. The cryptozoologist's job is to strip away the myth, misidentification, and mystery—and separate fact from fiction. Mysterious Creatures covers everything from dinosaurs and the emala-ntouka, an elephant-killing dinosaur-like animal of central Africa, to searches for the Loch Ness monster, Bigfoot, and other cryptozoological hoaxes. Entries about specific animals include the derivation or meaning of each cryptid's name, its scientific name, variant names, a physical description, behavior, description of tracks, habitat, significant sightings, present

status, and possible explanations. Illustrations and photographs accompany many entries. The book also includes resources and references for further information.

Histoire de la bête du Gévaudan Pierre Pourcher, 2006 Témoignages et réflexions de l'époque sur ce fait divers, tragique histoire qui fit une centaine de victimes parmi la population du Gévaudan. Depuis les premières apparitions du monstre en 1764, avec tous les rebondissements de l'affaire, jusqu'à sa fin en 1767. Ouvrage publié pour la première fois en 1889.

Encyclopedia of Cryptozoology Michael Newton, 2016-10-05 On every continent and in every nation, animals unrecognized by modern science are reported on a daily basis. People passionately pursue these creatures--the name given to their field of study is cryptozoology. Coined in the 1950s, the term literally means the science of hidden animals. When the International Society of Cryptozoology (ISC) was formed in 1982, the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur (either now or in the past) as well as the unknown persistence of presumed extinct animals to the present time or to the recent past...what makes an animal of interest to cryptology is that it is unexpected. This reference work presents a flesh and blood view of cryptozoology. Here, 2,744 entries are listed, the majority of which each describe one specific creature or type of creature. Other entries cover 742 places where unnamed cryptids are said to appear; profiles of 77 groups and 112 individuals who have contributed to the field; descriptions of objects and events important to the subject; and essays on cryptotourism and hoaxes, for example. Appendices offer a timeline of zoological discoveries, annotated lists of movies and television series with cryptozoological themes, a list of crypto-fiction titles and a list of Internet websites devoted to cryptozoology.

La bête du Gévaudan en Auvergne François Fabre, 1901

La bête du Gévaudan Jean-Marc Moriceau, 2008 En plein siècle des lumières, l'une des régions les plus reculées de France est plongée trois années durant dans une psychose qui déchaîne les passions : la Bête du Gévaudan s'attaque à des dizaines de personnes, femmes, enfants le plus souvent, qu'elle tue, entraîne dans les bois, et dévore. Quel est cet animal monstrueux, que traquent les chasseurs les plus habiles du royaume ? Les interprétations les plus diverses ont circulé, jetant sur les événements autant d'obscurité que de lumière. La relecture d'un historien s'imposait. Spécialiste reconnu du monde rural mais aussi des rapports entre l'homme et le loup, Jean-Marc Moriceau a relevé le défi. A travers son récit, c'est tout un pays oublié qui reprend vie : une société de rudes inégalités et de méfiance à l'égard de l'étranger, une économie de misère, une population fragile à l'activité incessante... et, l'une après l'autre, au fil des archives, la figure de chacun des jeunes gens qui ont eu affaire, entre 1764 et 1765, à la plus grande calamité de toute l'histoire de la province.
