Destination Marketing and Management Youcheng Wang, Abraham Pizam, 2011 This book offers a comprehensive understanding of the concept and scope of the tourism industry in general and of destination marketing and management in particular. Taking an integrated and comprehensive approach, it focuses on both the macro and micro aspects of destination marketing and management. The book consists of 27 chapters presented in seven parts with the following themes: concept, scope and structure of destination marketing and management, destination planning and policy, consumer decision-making processes, destination marketing research, destination branding and positioning, destination product development and distribution, the role of emerging technologies in destination marketing, destination stakeholder management, destination safety, disaster and crisis management, destination competitiveness and sustainability, and challenges and opportunities for destination marketing and management.

Destination Marketing Steven Pike, 2020-10-19 Destination Marketing offers the reader an integrated and comprehensive overview of the key challenges and constraints facing destination marketing organisations (DMOs) and how destination marketing can be planned, implemented and evaluated to achieve successful destination competitiveness. This new third edition has been revised and updated to include: 27 new and updated case studies, including destinations such as Sri Lanka, Barbados, the UAE, and crucially relevant topics such as the Australian bushfires and the threat of COVID-19 Brand-new pedagogical features such as in-chapter class activities, key term definitions, and highlighted critical points New content on cross-sector consortia marketing for meetings and events, social media influencer marketing, the role of technology, resource consumption and climate change, creativity and innovation in developing destination branding, experiential destination marketing and the influence of culture and sustainability on destination marketing Links to free access of the author's journal articles on destination marketing Updated additional online resources for lecturers and students including PowerPoint slides, quizzes and discussion questions It is written in an engaging style and applies theory to a range of tourism destinations at the consumer, business, national and international level by using topical examples.

Structures and Budgets of National Tourism Organizations 2004-2005 World Tourism Organization, 2006 Structures and Budgets of National Tourism Organizations (NTOs) is a benchmarking reference tool on inbound tourism promotion. The report compiles and analyses updated and comparable information on the budgets that NTOs allocate for the

promotion of inbound tourism as well as their structure, functions and forms of operation in order to illustrate different forms of NTO organization and possible action in the area of inbound tourism promotion. The first part of the report is focused on the NTOs structure and functioning, including a benchmarking analysis. The second part presents an overall view of NTO budgets for around 50 countries, including data on overall and promotional budgets, funding sources, budget allocation by source markets, products and promotional instruments, among other areas. The report is complemented with case studies from twelve countries covering a series of important aspects of their NTOs structure and organization

Environmental Communication and Travel Journalism Lyn McGaurr, 2015-07-16 Travel journalism about natural attractions is environmental communication at the cusp of consumerism and concern. Countries and regions that market forests, rivers and wildlife to international tourists drive place-of-origin brand recognition that benefits exporters in other sectors. Place-branding in such destinations is not just PR for environmentally sustainable development and consumption, but also a political enterprise. Environmental Communication and Travel Journalism considers tourism public relations as elite reputation management, and applies models of political conflict and source-media relations to the analysis of the 'soft' genre of travel journalism. The book seeks to understand how, in whose interests and against what odds discourses of cosmopolitanism and place-branding influence the way travel journalists represent vulnerable and contested environments. Informed by interviews with journalists and their sources, Environmental Communication and Travel Journalism identifies and theorises networks, cultures, discursive strategies and multiple loyalties that can assist or interrupt flows of environmental concern in the cosmopolitan public sphere. The book should be of interest to scholars of environmental communication, environmental politics, journalism, tourism, marketing and public relations.
