'I would rather eat my own testicles than reform The Smiths, and that's saying something for a vegetarian.' - Morrissey. Queer Political Performance and Protest Benjamin Shepard, 2009-09-10 From the birth of the Gay Liberation through the rise of the AIDS Coalition to Unleash Power (ACT UP) in 1987, the global justice movement in 1994, the largest day of antiwar protest in world history in February 2003, the Republican National Convention protests in August 2004, and the massive immigrant rights rallies in the spring of 2006, the streets of cities around the world have been filled with a new theatrical model of protest. Elements of fun, creativity, pleasure, and play are cornerstones of this new approach toward protest and community building. No movement has had a larger influence on the emergence of play in social movement activity than the gay liberation and queer activism of the past thirty years. This book examines the role of play in gay liberation and queer activism, and the ways in which queer notions of play have influenced a broad range of social movements.

Toward a Global Middle Ages Bryan C. Keene,2019-09-03 This important and overdue book examines illuminated manuscripts and other book arts of the Global Middle Ages. Illuminated manuscripts and illustrated or decorated books—like today's museums—preserve a rich array of information about how premodern peoples conceived of and perceived the world, its many cultures, and everyone's place in it. Often a Eurocentric field of study, manuscripts are prisms through which we can glimpse the interconnected global history of humanity. Toward a Global Middle Ages is the first publication to examine decorated books produced across the globe during the period traditionally known as medieval. Through essays and case studies, the volume's multidisciplinary contributors expand the historiography, chronology, and geography of manuscript studies to embrace a diversity of objects, individuals, narratives, and materials from Africa, Asia, Australasia, and the Americas—an approach that both engages with and contributes to the emerging field of scholarly inquiry known as the

Global Middle Ages. Featuring more than 160 color illustrations, this wide-ranging and provocative collection is intended for all who are interested in engaging in a dialogue about how books and other textual objects contributed to world-making strategies from about 400 to 1600.
