Watching TV Harry Castleman, Walter J. Podrazik, 2024-12-16 Castleman and Podrazik present a season-by-season narrative that encompasses the eras of American television from the beginning in broadcast, through cable, and now streaming. They deftly navigate the dizzying array of contemporary choices so that no matter where you start on the media timeline, *Watching TV* provides the context and background to this multi-billion-dollar enterprise. Drawing on decades of research, the authors weave together personalities, popular shows, corporate strategies, historical events, and changing technologies, enhancing the main commentary with additional elements that include fall prime time schedule grids for every season, date box timelines, highlighted key text, and selected photos. Full of facts, firsts, insights, and exploits from now back to the earliest days, *Watching TV* is the standard chronology of American television, and reading it is akin to channel surfing through history. The fourth edition updates the story into the 2020s and looks ahead to the next waves of change. This new edition is the first to also be available in a digital format.

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three- to five-star entries (three stars=good; four stars=excellent; five stars=masterpiece), and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is

appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre (i.e. animated, drama, sports, mystery, adventure etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.
