The Art of Power Thich Nhat Hanh, 2009-10-13 From work to personal relationships, the struggle for power plays a pivotal role in our lives, and more often than not prevents us from attaining freedom and happiness. In *The Art of Power*, revered Buddhist teacher Thich Nhat Hanh illustrates how our hunger for power leads us on a never-ending search for tokens of achievement like job title or salary. The stress, fear, and anxiety caused by this me-first approach to life are being felt by all of us everyday. But *The Art of Power* teaches us that true power comes from within, and the thing that we seek is already our own. With colorful anecdotes, precise language, and practical advice, this book will have an important and lasting effect on how we understand our culture and choose to live our lives. Thich Nhat Hanh is a Vietnamese Buddhist Zen Master, poet, scholar and peace activist. During the war in Vietnam, he worked tirelessly for reconciliation between North and South Vietnam. His courageous efforts to generate peace moved Dr. Martin Luther King Jr. to nominate him for the Nobel Peace Prize in 1967. Forced into exile because of his efforts to negotiate peace in Vietnam, he continued his activism, rescuing boat people and helping to resettle Vietnamese refugees abroad. Thich Nhat Hanh is the author of many books, including such important classics as *Peace is Every Step* and *Anger*. He lives Plum Village, his meditation center in France, and travels worldwide, leading retreats on the art of mindful living. INTRODUCTION TO COLLEGE PHILOSOPHY TEACHER SUPPLEMENT Victor Moeller, 2013-07-11 This college course, an Introduction to Philosophy, is not a history of the great philosophers and their systems. It is not a survey of the traditional divisions of philosophy--metaphysics, epistemology, phenomenology, ethics, politics, and aesthetics. It is, however, a process of doing philosophy that takes up some of the basic questions and problems that we will all encounter in life--sooner or later. It is also an application of the Socratic method of teaching and learning that develop habits of independent, critical, and reflective thinking. It is a series of Socratic seminars on the Great Books by the greatest faculty of the Western world and a process that illustrates how to pass from the world of work, need, and empirical science into the world of all things (beings) that Being provides.
