Secret Sects of Syria and the Lebanon Bernard H. Springett, 1922 *Secret Sects of Syria and the Lebanon* is a book written by Bernard H. Springett in 1922. The book provides a detailed analysis of the origin, beliefs, and religious ceremonies of various secret sects that existed in Syria and Lebanon during that time. The author delves into the history of these sects, tracing their roots back to ancient times and exploring how they evolved over the centuries. The book covers a wide range of topics related to these secret sects, including their religious beliefs, practices, and rituals. It also examines the role that these sects played in the social and political life of the region, as well as their impact on the wider world. Throughout the book, Springett provides a wealth of information and insights into these secret sects, drawing on a variety of sources including historical records, religious texts, and personal observations. He provides a fascinating glimpse into a world that was largely unknown to outsiders at the time. Overall, *Secret Sects of Syria and the Lebanon* is a valuable resource for anyone interested in the history and culture of the Middle East, as well as those interested in the study of religion and spirituality. *And Their Connection With And Influence Upon Modern Masonry.* This scarce antiquarian book is a facsimile reprint of the old original and may contain some imperfections such as library marks and notations. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions, that are true to their original work.

Faith in Numbers Michael Hoffman, 2021-01-18 Why does religion sometimes increase support for democracy and sometimes do just the opposite? In *Faith in Numbers*, political scientist Michael Hoffman presents a theory of religion, group interest, and democracy. Focusing on communal religion, he demonstrates that the effect of communal prayer on support for democracy depends on the interests of the religious group in question. For members of groups who would benefit from democracy, communal prayer increases support for democratic institutions; for citizens whose groups would lose privileges in the event of democratic reforms, the opposite effect is present. Using a variety of data sources, Hoffman illustrates these claims in multiple contexts. He places particular emphasis on his study of Lebanon and Iraq, two countries in which sectarian divisions have played a major role in political development, by utilizing both existing and original surveys. By examining religious and political preferences among both Muslims and non-Muslims in several religiously diverse settings, *Faith in Numbers* shows that theological explanations of religion and democracy are inadequate. Rather, it demonstrates that

religious identities and sectarian interests play a major part in determining regime preferences and illustrates how Islam in particular can be mobilized for both pro- and anti-democratic purposes. It finds that Muslim religious practice is not necessarily anti-democratic; in fact, in a number of settings, practicing Muslims are considerably more supportive of democracy than their secular counterparts. Theological differences alone do not determine whether members of religious groups tend to support or oppose democracy; rather, their participation in communal worship motivates them to view democracy through a sectarian lens.

Women in Lebanon M. Thomas,2012-12-28 Combining insider and outsider perspectives, Women in Lebanon looks at Christian and Muslim women living together in a multicultural society and facing modernity. While the Arab Spring has begun to draw attention to issues of change, modernity, and women's subjectivity, this manuscript takes a unique approach to examining and describing the Lebanese alternative modernities thesis and how it has shaped thinking about the meaning of terms like evolution, progress, development, history, and politics in contemporary Arab thought. The author draws on extensive ethnographic research, as well as her own personal experience.

Lebanon Paul Doyle,2023-04-17 This new, thoroughly updated third edition of Bradt's Lebanon remains the only English-language guide dedicated to the smallest country on the Asian continent. Comprehensively updated throughout to reflect recent economic, political and social changes, it includes revised and new listings for hotels, restaurants, and what to see and do, catering for all types of travellers and budgets. Although only half the size of Wales, Lebanon offers extraordinary diversity. Some of the world's oldest human settlements, including the Phoenician ports of Tyre and Byblos - two of Lebanon's five World Heritage sites - sit alongside modern Beirut. The absorbing capital is popular for its world-renowned cuisine, eclectic nightlife, mosaic of peoples and kaleidoscope of religions. In Lebanon's second city, Tripoli, busy medieval souks are watched over by a vast Crusader castle. Nearby, snow-capped mountains and the lush Qadisha Valley with its snaking river and waterfalls provide entertainment for skiers and hikers (the latter also well served by the Lebanon Mountain Trail, which runs virtually the length of the country). Three hundred days of sunshine per year makes Lebanon a 'go anytime' destination, with the Mediterranean coastline particularly drawing sun-seekers and watersports enthusiasts. Wildlife-lovers can enjoy Shouf Biosphere Reserve (with its famed cedar trees, the national emblem) and the Aammiq Wetlands, while Lebanon has become a major destination for religious tourism, and vinophiles can visit numerous Bekaa Valley wineries of international repute. Bradt's Lebanon offers detailed coverage of areas ignored by other guides, particularly the country's south, as well as more extensive cultural and practical information. New for this edition are specialist features on aspects of Lebanese cultural life, additional background information, updates on work to rebuild Beirut following the 2020 explosion, extended and revised coverage of the Aammiq Wetlands, new and updated maps, and new visitor attractions including the

MIM mineral museum and the Middle East's first chocolate museum, both in Beirut. With a comprehensive language appendix covering both Arabic and French, detailed historical and religious background that helps visitors travel with awareness and sensitivity, and in-depth travel information, Bradt's Lebanon is an indispensable practical companion to visiting this excitingly varied country.

Come with Me from Lebanon Arnold H. Sturtevant, 2011-08-19 *Come With Me From Lebanon* sheds exciting new light on the Song of Solomon. What has until now been considered but a beautiful portrayal of God's Love may also prove to be a 'sleeping giant' of end-time prophecy. This book is certain to stimulate a reappraisal of the Song. [Harold Duff, Bible Teacher/Christian Education, Conference Speaker, President, Christian Ministries, Inc.] Sturtevant's allegorical representation may well be right! I remember in seminary hearing this general point of view ... but not with the precision and carefulness of (the author's) manuscript. [Kenneth N.
