Memory, Intermediality, and Literature Sara Tanderup Linkis, 2019-04-16 If readers of Sara Tanderup Linkis' *Something to hold on to ...* open the book in the expectation of entering a niche of literature and literary studies, they will leave it after having encountered a new highway in literature. Here, the traditional theme of memory and the most recent use of digital media merge into a new understanding of the role of the book in the contemporary media landscape and of vicissitudes of memorial processes literature, which also offers a broader perspective on literature in human history. Spurred by Sara Tanderup Linkis' sharp eye the readings of texts are lucid, engaging and offers so many ideas that teachers will renew their curricula, and readers will open the internet for more or rush to the library. — Svend Erik Larsen, professor emeritus *Memory, Intermediality, and Literature* investigates how selected literary works use intermedial strategies to represent and perform cultural memory. Drawing on the theoretical perspectives of cultural memory studies, this engaging, reader-friendly monograph examines new materialism and intermediality studies, analyzing works by Alexander Kluge, W.G. Sebald, Jonathan Safran Foer, Anne Carson, Mette Hegnhøj, William Joyce, J.J. Abrams and Doug Dorst. The works emerge out of different traditions and genres, ranging from neo-avant-garde montages through photo-novels and book objects to apps and children's stories. In this new monograph, Sara Tanderup Linkis presents an interdisciplinary and comparative approach, reading the works together, across genres and decades, and combining the perspectives of memory studies and materialist and media-oriented analysis. This approach makes it possible to argue that the works not only use intermedial strategies to represent memory, but also to remember literature, reflecting on the changing status and function of literature as a mediator of cultural memory in the age of new media. Thus, the works may be read as reactions to modern media culture, suggesting the ways in which literature and memory are affected by new media and technologies – photography and television as well as iPads and social media.

We Will Rise Tim Waggoner, 2022-07-19 For fans of 'The Walking Dead' and 'The Evil Dead', Tim Waggoner has a knack for taking conventional horror tropes and giving them a deliciously bizarre spin. Horror Fiction Review. In Echo Hill, Ohio, the dead begin to reappear, manifesting in various forms, from classic ghosts and poltergeists, to physical undead and

bizarre apparitions for which there is no name. These malign spirits attack the living, tormenting and ultimately killing them in order to add more recruits to their spectral ranks. A group of survivors come together after the initial attack, all plagued by different ghostly apparitions of their own. Can they make it out of Echo Hill alive? And if so, will they still be sane? Or will they die and join the ranks of the vengeful dead? Print Is Dead Jeff Gomez, 2008 For over 1500 years books have weathered numerous cultural changes remarkably unaltered. Through wars, paper shortages, radio, TV, computer games, and fluctuating literacy rates, the bound stack of printed paper has, somewhat bizarrely, remained the more robust and culturally relevant way to communicate ideas. Now, for the first time since the Middle Ages, all that is about to change. Newspapers are struggling for readers and relevance; downloadable music has consigned the album to the format scrap heap, and the digital revolution is now about to leave books on the high shelf of history. In *Print Is Dead*, Gomez explains how authors, producers, distributors, and readers must not only acknowledge these changes, but drive digital book creation, standards, storage, and delivery as the first truly transformational thing to happen in the world of words since the printing press.

Science Fiction in Argentina Joanna Page, 2016-03-29 This book examines an unprecedented range of science fiction texts-including literature, cinema, theater, and comics-produced in Argentina from the nineteenth to the twenty-first centuries. These works address themes common to the genre across the industrialized world, including techno-authoritarianism, new modes of posthuman subjectivity, and apocalyptic visions of environmental catastrophe. At the same time, Argentine science fiction is fully grounded in the social and political life of the nation. The texts discussed here explore the impact of an uneven modernization, mass migration, dictatorships, crises in national identity, the rise and fall of the Left, the question of Argentina's indigenous heritage, the impact of neoliberalism, and the most recent economic crisis of 2001. Argentine science fiction is also highly reflexive, debating within its pages the role of science fiction and fantasy in the society of its day, and the nature of the text in a world of advancing technology. This book makes important contributions to our understanding of science fiction as a genre, as well as to materialist theories of cultural texts. It will also interest students and scholars researching the culture, history, and politics of Argentina and Latin America. Book jacket.

Science Fiction Quotations Gary Westfahl, 2008-10-01 In this unprecedented collection of science fiction and fantasy quotations, the reader revisits the stunning moment when Mary Shelley's *Frankenstein* monster first comes to life; witnesses the transformation of Robert Louis Stevenson's Dr. Jekyll into Mr. Hyde; is present when Bruce Wayne resolves to become

Batman; and overhears the cosmic conclusions of The Incredible Shrinking Man. Drawing upon two centuries of the vast and provocative literature of science fiction and fantasy, this comprehensive book presents more than 2,900 quotations from wide-ranging sources, including science fiction and fantasy stories, novels, films, and television programs. The quotations are organized by topic—alien worlds; darkness and light; robots, androids, and cyborgs; machines and technology; weapons; and more than one hundred others. The reader will encounter the wit and wisdom of renowned authors (H. G. Wells, Ray Bradbury, J. R. R. Tolkien, Ursula K. Le Guin) along with definitive versions of such important statements as Isaac Asimov's Three Laws of Robotics and Star Trek's Prime Directive. With its thorough index, this book is both an invaluable resource for the writer or scholar and an irresistible page-turner for the curious browser.

Romeo and Juliet in Palestine Tom Sperlinger, 2015-06-26 Is 'Romeo and Juliet' really a love story, or is it a play about young people living in dangerous circumstances? How might life under occupation produce a new reading of 'Julius Caesar'? What choices must a group of Palestinian students make, when putting on a play which has Jewish protagonists? And why might a young Palestinian student refuse to read? For five months at the start of 2013, Tom Sperlinger taught English literature at the Abu Dis campus of Al-Quds University in the Occupied West Bank. In this account of the semester, Sperlinger explores his students' encounters with works from 'Hamlet' and 'The Yellow Wallpaper' to Kafka and Malcolm X. By placing stories from the classroom alongside anecdotes about life in the West Bank, Sperlinger shows how his own ideas about literature and teaching changed during his time in Palestine, and asks what such encounters might reveal about the nature of pedagogy and the role of a university under occupation.
