Teaching Multicultural Children's Literature in a Diverse Society AnnMarie Alberton Gunn, Susan, V. Bennett, 2023-03-28 This textbook is a comprehensive resource for teaching multicultural children's literature. Providing foundational information on how and why to integrate diverse children's literature into the classroom, this book presents a necessary historical perspective on cultural groups in the United States and context for how to teach children's literature in a way that reflects and sustains students' rich cultural backgrounds. The historical insights and context on diverse cultural groups at the heart of the book allow readers to deepen their understanding of why teaching about cultural diversity is necessary for effective and inclusive education. instructional value to promote literacy and spark children's lifelong love of literature. How Do I Get Them to Write? Karen Filewych, 2017-05-15 This remarkable book shows teachers how to inspire students to learn to write and write to learn. Committed to the premise that all students can learn to write with appropriate teaching, modelling, and practice, it argues that reading and writing go hand in hand. Through reading, writing and the inevitable discussions that follow, students learn from the experiences of others, open their minds to many possibilities, gain a glimpse into new worlds, make connections to their lives, and reflect on their own choices and learning. This practical book shows you how to use freewriting and powerful mentor texts to create classrooms where students enjoy putting pencil to paper and taking the necessary risks to grow and flourish as writers.

From Staff Room to Classroom II Brian M. Pete, Robin J. Fogarty, 2009-11-16 Through their extensive experience conducting professional development sessions with educators nationally and internationally, the authors have acquired a vast compendium of effective presentation and facilitation strategies. Now, in their companion to *From Staff Room to Classroom*, they present 144 strategies for leading staff development workshops, professional learning communities, and staff meetings. These proven, easy-to-use activities are organized into four morphological grids, with columns corresponding to the three principles for successful presentations: Openers, capture the audience's attention; Meat of the Matter, captivate with the information; Closers, close with keepers. Using different strategies from each column of a morphological grid, presenters can create a different presentation format every time. Ideas can be arranged or rearranged according to personal preference, group needs, or as a random creative act. Designed for staff developers, school leaders, and professional learning community facilitators, *From Staff Room to Classroom II* makes planning creative and winning presentations effortless.

Literate Thought Peter Paul, Ye Wang, 2011-06-09 *Literate Thought: Understanding Comprehension and Literacy* introduces students and professionals to the multifaceted concept of literate thought and related complex concepts such as language, literacy, cognition, and comprehension, as well as other areas such as the new and multiple literacies, psychological or disciplinary models, and critico-creative thinking. *Literate Thought: Understanding Comprehension and Literacy* details the various aspects of a model or theory of literate thought with examples to enhance understanding of the concept. This incisive text provides an overview of literate thought and emphasizes the necessity to develop literate thought in individuals from a multiple perspective, not just from print literacy only. With alternative and additional options for developing literate thought, the possibility to improve levels of thinking in everyone, including children with disabilities and those learning English as a second language, may be increased. This ground-breaking text provides meaningful application in

practice for speech-language pathology, special education, psychology, and reading and literacy professionals.
