**Debating Sex and Gender in Eighteenth-Century Spain** Marta V. Vicente, 2017-10-05 This book explores the popular and elite debates over the creation of a two-sex model of human bodies in eighteenth-century Spain.

**Punishment, Restorative Justice and the Morality of Law** Erik Claes, René Foqué, Tony Peters, 2005 Critics take the unclear status of restorative justice practices, along with their vagueness in meaning and purpose, as a clear invitation to a fundamental questioning of the legitimacy of these practices. Their supporters consider the experiment of restorative justice as a platform for reforming penal institutions and for rethinking the legitimacy of orthodox legal reasoning. Within the framework of a *rechtsstaat*, a democratic state governed by fundamental rights and by the rule of law, both issues of legitimacy lead not only to reflection on concepts such as restoration, punishment, or on such notions as harm and wrong. Questioning the legitimacy both of restorative justice practices and of the prevailing penal system also inevitably involves some reflection on, and articulation of, the underlying values and normative aspirations of such a democratic constitutional state. What are these values and how can they be given appropriate expression in the leading concepts and principles of the criminal law? To what extent are fundamental rights and principles of the rule of law sufficiently reflected in the practices of restorative justice? How are these practices to be related to the criminal justice system according to the normative aspirations of a democratic constitutional state? To what degree can current penal practices be made continuous with these aspirations? These fundamental questions formed the intellectual framework for the 10th Aquinas Conference on Restorative Justice, Punishment and the Morality of Law, at which conference the larger part of the papers published in this volume were presented. Consistent with the structure of the conference, this collection of essays is organised into three parts, each focussing on one central topic and containing a lead essay and corresponding replies. The first part offers critical scrutiny of one of the cornerstones of a criminal justice system governed by the rule of law, namely the principle of legality. Efforts are made to empower this principle through reflection on its underlying values and aspirations, and this in order to meet some of the legitimate ideals and concerns of restorative justice. These efforts are subsequently assessed from both sociological and philosophical perspectives. In the second part, attention is drawn to the legitimacy of restorative justice practices. Here, the normative intuitions of a democratic constitutional state serve either as a critical framework to assess these practices, or, more optimistically, as ideals to whose realisation restorative justice is supposed to make a valuable contribution. And,

finally, in the third part, reflection on the value of restorative justice brings us to a fundamental questioning of the legitimacy of punishment and penal practices. Central to the discussion is whether it is possible to interpret and normatively reconstruct the idea and practice of punishment so as to make them compatible with, and even continuous with, the underlying values of a democratic constitutional state.

*The Dawn of a Discipline* Frédéric Mégret, Immi Tallgren, 2020-09-24 The history of international criminal justice told through the revealing stories of some of its primary intellectual figures.

**Victim Policies and Criminal Justice on the Road to Restorative Justice** Tony Peters, 2001 This edited volume contains 22 papers organized into three sections under the following headings: part I is entitled On Promoting Victim Policies; Part II On Reforming Criminal Justice; and Part III On Restorative Justice. All three areas are ones to which Tony Peters, former Professor of Criminology in Leuven, has made a significant contribution and for which he is known as an international authority. During his long and productive academic career Tony Peters led many struggles for criminal justice reform. He was a leading figure in the movement to recognize crime victims' plight and to reaffirm their rights. In Belgium, he spearheaded the early initiatives in restorative justice and became one of its outspoken proponents nationally and internationally. There is no doubt that these three major topics and the various developments and reforms that are addressed in the papers will dominate the thinking about, and the practice of, criminal justice in the years to come. Thus, in addition to paying homage to a congenial friend and an illustrious colleague, it is hoped that this book will appeal and prove useful to all those who have an interest in victims issues, in criminal justice reform, and last but not least, in the promising paradigm of restorative justice.
