**Slade A. Brewer, David H. Ingram, Marine Corps Command and Staff College (U.S.). Education Center, United States. Marine Corps Development and Education Command**

**1948** Benny Morris, 2008-10-01 This history of the foundational war in the Arab-Israeli conflict is groundbreaking, objective, and deeply revisionist. Besides the military account, it also focuses on the war's political dimensions. Historian Morris probes the motives and aims of the protagonists on the basis of newly opened Israeli and Western documentation. The Arab side--where the archives are still closed--is illuminated with the help of intelligence and diplomatic materials. Morris stresses the jihadi character of the two-stage Arab assault on the Jewish community in Palestine. He examines the dialectic between the war's military and political developments and highlights the military impetus in the creation of the Palestinian refugee problem. He looks both at high politics and general staff decision-making and at the nitty-gritty of combat in the battles that resulted in the emergence of the State of Israel and the humiliation of the Arab world--a humiliation that underlies the continued Arab antagonism toward Israel.--Résumé de l'éditeur.

**Palestine 1948, 2nd Edition** Yoav Gelber, 2006-01-26 Since the 1970s, the Latin Based on new or newly interpreted Israeli, British and Arab documents, this book attempts to integrate present controversies concerning the development of the Jewish-Palestinian war from December 1947 to mid-May 1948 and the consecutive Israeli-Arab war. It follows the organization of both sides at the beginning of the war and the shaping of their respective war policies. Further, it describes the creation of the invading coalition and its disintegration in the wake of the Arab armies' military failure. The book stresses mainly the processes that led Palestinian society to its collapse and mass flight and the Israeli reactions and policies that turned this temporary escape into a long-lasting refugee problem. Emphasizing the different historical and cultural perspectives of the adversaries and the context of the war's development, it criticises the approach of the Israeli 'New Historians' who tend to isolate the refugee problem from the broader issues of the war and treat it separately. Includes a glossary of Arab/Israeli wartime operations.

*The Making of the Arab-Israeli Conflict, 1947-1951* Ilan Pappé, 1992 Arabs and Jews describe the first Arab-Israeli war of 1948 in completely different ways. Among Arabs, and especially Palestinians, the events of that year are known as the nakba-

-The catastrophe, the trauma, the disaster. For Jews, and in particular for Israelis, their victory in the war of 1948 is a veritable miracle in which, against tremendous odds and through heroic military effort, the Jewish community succeeded in thwarting attempts by the Arab states to destroy it. This book integrates archival material with the findings of recent scholarship to present the reader with a history of the origins and consequences of the 1948 war. The author shows, in contrast to the recollections and myths of both sides, that the military events of 1948 were not decisive. The victory of the Zionist organization and the fate of the Palestinians was determined by politicians on both sides - in the discussions and decisions of the United Nations in 1947-8 and in the Arab League - long before a shot had been fired. The author argues that Israel's failure to take advantage of the genuine opportunity for peace with the Arabs at the UN-sponsored Lausanne Conference in 1949 resulted in the prolonged and tragic conflict between Israel and the Arab states still very much alive today. --From publisher's description.

**Social Mobilization in the Arab/Israeli War of 1948** Moshe Naor, 2013-08-21 In many ways, the Arab-Israeli war of 1948 is typical of the total military conflicts that characterized the first half of the twentieth century. However, in addition to the military course of the war, and its formative and revolutionary ramifications, this war was also notable for the social mobilization of the Israeli population. *Social Mobilization in the Arab-Israeli War of 1948* focuses on these civilian aspects of the war, the involvement of the Israeli home front in the fighting and the participation of society in the process of mobilization. Israeli civil society organizations played an active and central role in mobilizing the economy for the war effort, mobilizing personnel for military service, for labor and for the emergency services, and in organizing the home front. The function of Israeli society and civil organizations in processes of mobilization, conducted against the background of the end of the British mandate and the establishment of the State of Israel, was one of the principal factors that contributed to the Israeli military victory in the 1948 war. Civilian aspects of the 1948 war have received little attention, despite the opening of the archives in the 1980s. As such, *Social Mobilization in the Arab-Israeli War of 1948* is an important contribution, particularly for those interested in Israeli History, Jewish History, Middle Eastern History, the Arab-Israeli conflict and War Studies.

**The Arab-Israeli Conflict** Efraim Karsh, 2002 An examination of the Palestine War of 1948 and its progression through two distinct stages: the guerrilla warfare between the Arab and Jewish communities of Mandatory Palestine, and the conventional inter-state war between the State of Israel and the invading Arab armies.

**1948 and After** Benny Morris, 1990 These essays by a leading Israeli new historian focus on Israeli decisions and the reasons behind the mass Arab exile from Palestine in 1948. Morris addresses the transfer of Majdal's Arabs to Gaza in 1950, the initial absorption of the Palestinian refugees in Arab host countries in 1948-9, and why some Arabs remained in their villages. He then explores attitudes toward the Palestinian Arabs from the 1948 war to the differing perspectives of Israel's

two main parties. By examining past and present Israeli historiography, Morris identifies and analyzes the major points of controversy between the old official Israeli histories and the new histories of the 1980s.

*The War for Palestine* Eugene L. Rogan, Avi Shlaim, 2001 The Arab-Israeli conflict is one of the most intense and intractable international conflicts of modern times. This book is about the historical roots of that conflict. It re-examines the history of 1948, the war in which the newly-born state of Israel defeated the Palestinians and the regular Arab armies of the neighbouring states so decisively. The book includes chapters on all the principal participants, on the reasons for the Palestinian exodus, and on the political and moral consequences of the war. The chapters are written by leading Arab, Israeli and western scholars who draw on primary sources in all relevant languages to offer alternative interpretations and new insights into this defining moment in Middle East history. The result is a major contribution to the literature on the 1948 war. It will command a wide audience from among students and general readers with an interest in the region.

*Essential Histories*, 2009 Discusses the origins, developments, and outcomes of a number of conflicts and wars during the twentieth century, discussing the Israel-Arab War from 1948 to 1949, the Korean War from 1950 to 1953, the Sinai Campaigns of 1956, the Vietnam War from 1961 to 1975, the Iran-Iraq War from 1980 to 1988, and the Gulf War of 1991.

*The Arab-Israeli Wars* Chaim Herzog, Shlomo Gazit, 2004 Israel was born in battle. No sooner had independence been declared than seven Arab armies invaded the tiny, nascent state, bent on its destruction. The tragedy of the Middle East had begun. In the critically acclaimed *Arab-Israeli Wars*, Chaim Herzog, the former President of Israel, details the epic story of Israel's struggle to exist. He provides a balanced blow-by-blow account of one of history's most bitter and enduring conflicts - Arab versus Jew. As well as describing every campaign in absorbing and incisive detail, Herzog - who had the advantage of personally knowing the generals and politicians who have worked to ensure the state's survival - highlights the personal and political struggles that have determined the Middle East conflict. This prize-winning account has been fully updated to the ongoing intifada by General Shlomo Gazit, who served as the Israeli Head of Military Intelligence and was personally involved in negotiations with Egypt and the Palestinians.--BOOK JACKET.

**The War for Palestine** Eugene L. Rogan, Avi Shlaim, 2001-02-16 By all accounts, the 1948 Palestine war was one of the most significant milestones in the modern history of the Middle East and remains one of the most intractable conflicts of modern times. Israelis call the 1948 war The War of Independence while Arabs call it al-Nakba or the disaster. The conventional Israeli version portrays 1948 as an unequal struggle between a Jewish David and an Arab Goliath, as a desperate, heroic, and ultimately successful battle for survival against overwhelming odds. In this version all the surrounding Arab states sent their armies into Palestine to strangle the Jewish state at birth and the Palestinians left the country on orders from their own leaders and in the expectation of a triumphal return. Since the late 1980s, however, a group of new historians or revisionist Israeli historians have challenged many of the claims surrounding the birth of the State of Israel and the first Arab-Israeli war. The present volume was conceived as a contribution to the ongoing debate about 1948. The War for Palestine brings together leading Israeli new historians with prominent Arab and Western scholars of the Middle East who revisit 1948 from the perspective of each of the countries involved in the war. The result is a volume that is rich in new material and new insights and which enhances considerably our understanding of the historical roots of the Arab-Israeli conflict. Eugene L. Rogan is a Lecturer in Modern History of the Middle East, Fellow of St. Anthony's College, and Director of the Middle East Centre at the University of Oxford. He is the author of *Frontiers of State in the Late Ottoman Empire* (Cambridge, 2000) and co-editor of *Village, Steppe, and State: the Social Origins of Modern Jordan* (St. Martin's, 1995). Avi Shlaim is a Professor of International Relations and Fellow of St. Anthony's College, University of Oxford, and he is also the Director of Graduate Studies in International Relations. He is the author of several books, the most recent one being *The Iron Wall: Israel and the Arab World* (Norton, 1999). Professor Shlaim is a frequent contributor to newspapers and a media commentator on Middle Eastern affairs.

*History of the War of Independence: The first invasion* Uri Milstein, 1996 This volume represents the latest English translation of Milstein's series on the history of the Israeli War of Independence. Covering the first months of 1948, *History of Israel's War of Independence - Volume III* provides a detailed description of the first clashes between Jews and Arabs into a full-scale war in December, 1948. Included are accounts of both Hebrew and Arab car bombs, arms procurement, and the first invasions into Palestine.

**The Seeds of Conflict. Examining Britain's Withdrawal from Palestine in 1948** Lindsey McIntosh, 2017-05-22

Essay from the year 2014 in the subject History - Miscellaneous, grade: 68, University of Strathclyde, course: History, language: English, abstract: The inter- and post-war years in Palestine occupied some of the most turbulent decades of conflict in the history of the Middle East. Following the dissolution of the Ottoman Empire at the end of the First World War, the League of Nations entrusted the mandated territory of Palestine to the United Kingdom at the San Remo Conference of 1920. For twenty-eight years, responsibility for the Palestinian people and their land would fall subject to British control. However, this penetration of western control would bring a de-stabilizing effect upon the land and a multitude of factors later intertwined to cause dissipation of the mandate. The decision to withdraw from Palestine was officially reached on the November 29th, 1947 by a two-thirds majority vote at the United Nations General Assembly. However, despite discussions for this retreat taking place months prior, its execution would by no means form a simple process. Rather, the repercussions of this decision led not only to the Arab-Israeli War in 1948, but also dramatically altered the demographic landscape of Palestine itself. The ambition of this essay will not be to identify a single 'supreme' factor which influenced the British to relinquish control of the mandate. Nor will it attempt to cover every element that contributed towards the decision for partition, as to do so would both dilute and complicate the study of the essay. However, it will propose to examine several integral factors of both short- and long-term positions in order to develop a clearer understanding of what lead to Britain's decision to withdraw from Palestine on May 14th 1948 and the repercussions cast behind the creation of Israel.
