William And Kate : The Love Story - A Celebration Of The Wedding Of The Century Robert Jobson, 2010-12-06
Packed with fascinating anecdotes, sharp analysis and exclusive photographs by a celebrated royal photographer, this title reveals the secrets of Prince William and Kate Middleton's royal romance.

The New Royal Family - Prince George, William and Kate: The Next Generation Robert Jobson, 2014-08-07 A fully updated insider's account of the royal romance from trusted journalist Robert Jobson, NBC's royal correspondent It is the love story which captivated the world and, after 8 years together, William and Kate married in spectacular style at Westminster Abbey on April 29th, 2011. This is a true insider account of Prince William's amazing love affair with Kate Middleton; from their initial meeting at university in Scotland to married life in North Wales while William pursues his RAF career. He is the confident young Prince who is the future of the Royal family. She is the royal bride and future Queen Consort who is thoroughly modern and confounds all the stereotypes of how a royal partner should be. Since the Palace announced the Duchess's much-anticipated pregnancy in 2012, speculation has gone into overdrive about the pitter-patter of tiny feet. This in-depth book chronicles the next chapter in this modern-day fairy tale and is packed with beautiful photographs, fascinating facts, and expert analysis into the most pivotal royal romance of our time. An intriguing insight and unrivaled souvenir, this is an essential read for royalists and romantics alike.

God Save the Queen? Johann Hari, 2002 Explosive and timely critique of a monarchy in meltdown. Johann Hari argues that the tragicomic soap opera that is the monarchy devalues the Windsors themselves and 21st century Britain as a whole. He suggests cogent and often surprising alternatives and finally concludes - it's time to wave goodbye.

The Future Royal Family Robert Jobson, 2014-06-25 They have been dubbed 'the modern royals' by the world's media, and have not only won the hearts and the loyalty of millions of people around the world, but have helped to re-establish the British royal family as an important, and largely admired, presence in national and international affairs. In short, Their Royal Highnesses the Duke and Duchess of Cambridge - also known simply as 'William and Kate' - have done as much as anyone to bring the royal family into the twenty-first century, and to keep it firmly in the national consciousness. The birth of Prince George, their first child, on 22 July 2013, fuelled such a worldwide media and public frenzy that it became the most talked-about event of the year. The birth of a future heir, combined with the historic possibility of the first baby to be born not only

to a Queen-in-waiting, but to the son of the much mourned Diana, Princess of Wales, accounted for much of the excitement, but that was stoked by a natural affection for the young couple. From the beginning, the world had watched with bated breath as the charming Prince William and his future bride overcame the struggles of university, rumours and a brief break-up before finally reconciling and becoming engaged. Their ceremonial wedding in 2011 - watched by an incredible estimated 2 billion people worldwide - was a defining moment, not only in their young lives, but also for the perception of the monarchy. The Duke and Duchess of Cambridge have come to embody the spirit and hope of their nation, and their deserved popularity has had a profound effect upon the future of the royal family. As well as a history of the young couple's romantic relationship, this in-depth book chronicles the next chapters in this modern fairy tale, backed by beautiful photographs, fascinating facts and expert analysis. Now completely revised and updated to cover the period from the birth of Prince George to the arrival of the new prince or princess in April 2015, the book is both an intriguing insight into modern royalty, and an unrivalled souvenir.

A Matter of Principle Thomas Cushman, 2005-07-11 Offering alternative viewpoints to the prevailing pro & anti-war debate, this volume considers the argument that intervention in Iraq was justified on the grounds that protection of human rights & freedom from tyranny are global concerns.

New Statesman, 2002

Breaking Mic Wright, 2005-06-12 'Brimming with intelligence, energy, ethics and impeccable research' Samira Ahmed The modern media is breaking. Now, more than ever, the media is crucial in shaping what we know about the world around us. So what happens when this vital part of our society fails in its basic role and how can we even begin to understand the mess it's in? From those who own the news and the battle for balance at the BBC, to the intricacies of political journalism and the trade's ethics, the modern media is as complex as it is flawed. Through personal experience of the newsrooms and insider interviews, journalist Mic Wright strips the engine of information, entertainment and propaganda back to its constituent parts and lays it bare. In this revealing deep-dive, *Breaking* shows how our news media works and, ultimately, how it doesn't. With his frank and comprehensive analysis, Mic equips the reader with the tools to better interrogate our media, separating the fair from the ethically dubious, the truths from the half-truths . . . and the down-right lies.
