Nothing Matters Ronald Green, 2011-08-26 Is nothing everything? As strange as that question looks at first sight, it will definitely make sense after reading NOTHING MATTERS. Provocative and accessible, free of jargon, NOTHING MATTERS shows that there is more to nothing than meets the eye. History, the arts, philosophy, politics, religion, cosmology - all are touched by nothing. Who, for example, could have believed that nothing held back progress for 600 years, all because of mistaken translation, or that nothing is a way to tackle (and answer) the perennial question 'what is art'?

The Meaning of Death Kai Horsthemke, 2024-07-23 If death is the cessation of life, then, as a concept, it draws its meaning from the preceding life. While death and dying are inextricably connected, dying is still a part of life—unlike death. The Meaning of Death: A Philosophical Investigation analyzes death and dying, the biotechnical quest for immortality, the

afterlife, and the rationality of self-chosen death. Assuming eternal life will one day become possible, Kai Horsthemke argues that immortality is not obviously desirable, and that. even if the right to life in principle includes the right to eternal life, it must also include the right to self-determined dying and death. Although there is no creationist basis for existence and the finality of death remains a universal, inevitable prospect, this need not undermine confidence in the personal and transpersonal value of human activities. Life is valuable not only because of its uniqueness and unrepeatability, but also because it is finite. The meaning of death is essentially that it gives meaning to life.

Wisdom for Mindful Living Ronald Gordon, 2023-01-20 Stress, anxiety, and depression are running rampant in the twenty-first century. We're imploding, our internal systems are crashing. We need rescuing, self-caring, self-nurturing, self-healing, and self-transcendence. We need to discover mindsets and methods that will allow us to continue on with poise and purpose. Wisdom from the past and human sciences from the present combine in these pages to pass along teachings for wiser living. Affirmations, visualizations, words of wisdom, growth-mindset prompts, natural breath awareness reminders, and breathwork techniques are all aimed at taking us beyond the limited confines of our busy worrying minds and into the realm of purer Awareness. This volume contains more than a thousand brief stand-alone entries, well-suited to the needs of today's reader. Just open the book somewhere and dive in for one, two, or three minutes. You will come away enriched. Sometimes we're meant to spend awhile with a particular book. That's how it will be for this volume and its readers. There's wisdom here of which we all need to be reminded.

Slaying the Dragon Robert W. Griffiths, 2012-09-14 A broad critique of the negative role that religion has played in influencing human culture historically along with an updated look at its conflict with the atheist ethos. This goes hand in hand with a personal reflection on why the author became a non-believer.

Go, Go, Go, Said the Bird Richard Oerton, Taking its title from lines in T.S. Eliot's Four Quartets - "Go, go, go, said the bird: human kind cannot bear very much reality" - this book sets out to expose some of the realities which, at this stage of our evolution, human beings cannot bear to accept. Successive chapters examine rationality, conscience, religion, perception, sexuality, free will, moral responsibility and crime, pointing out the incomprehension which mars our approach to each topic. One of the book's themes is that we are still, below the surface, a savage species, clinging to our misconceptions because they liberate and justify our cruelty to one another. Despite its deadly serious and controversial approach, the book is enlivened by humour, personal stories, quotes from others and bits of poetry. It is not academic but readily accessible to the general reader. In the last chapter, the author sums up by saying that, although the human species now is what it is, some of us can imagine a better one: "A species that isn't irrational, ignorant, credulous, uncomprehending, self-defeating, ill at ease with its sexuality, mired in contradictory beliefs, impelled by a savagery let loose by misperception and misunderstanding", and asks: "Could this imaginary species ever become a real one?".

Thinking the Twenty-First Century Malcolm McIntosh, 2017-09-08 In a sophisticated and far-reaching blend of theory and reflection, *Thinking the Twenty-First Century* takes a provocative look at the changes required to build a new global political economy. McIntosh charts five system changes essential to this transition: globality and Earth awareness; the rebalancing of science and awe; peacefulness and the feminization of decision-making; the re-organization of our institutions; and, evolution, adaptation and learning. That they are all connected should be obvious, but that they are written about together is less common. McIntosh argues that these five changes are already under way and need to be accelerated. Combining science, philosophy, politics and economics, *Thinking the Twenty-First Century* questions our current model of capitalism and calls for a much-needed new order. This forceful call to action advocates a balanced political economy with transdisciplinarity, connectivity, accountability and transparency at its centre, as an alternative to a world built on the failing system of neoliberal economics. From one of the pioneers of the global corporate sustainability and social responsibility movement, this unique book combines analysis, diary and reflection to present a radical way forward for the twenty-first century.

Heaven Jacky Newcomb, 2013-02-14 Afterlife expert and bestselling author Jacky Newcomb knows that the spirit world is real. Thousands of people have experienced contact from the departed or seen the afterlife themselves. After collecting these experiences for 12 years, Jacky answers key questions in *Heaven*, like: - What happens to the soul once the body dies? - Do our experiences on earth and our beliefs affect the next part of the journey? - Did our loved ones make it safely to heaven? - Can we communicate with the departed? In *Heaven*, Jacky Newcomb will bring peace, reassurance and hope to everyone who has ever wondered about life after death. Jacky Newcomb is the UK's leading expert on the afterlife, having dedicated her life to the subject. She is a Sunday Times bestselling author with numerous awards to her name, a regular columnist for *Take A Break's Fate & Fortune* magazine, and is a regular on ITV's *This Morning*, Lorraine Kelly's show and *C5 Live with Gabby Logan*.

Mark Twain's Mysterious Stranger Sholom Jacob Kahn, 1978 Compares and contrasts the three *Mysterious Stranger* manuscripts by Mark Twain: *The Chronicle of Young Satan*, *Schoolhouse Hill*, and *No. 44, the Mysterious Stranger*, which differ widely in plot and setting, but all contain the character of the angel named Young Satan, who later becomes No. 44.
