The Experience of Truth Gaetano Chiurazzi, 2017-01-01 Advances a hermeneutic conception of truth as a mode of being, in dialogue with Aristotle, Nietzsche, Gadamer, Heidegger, Putnam, and Rorty. What does it mean to say that something is true? In this book Gaetano Chiurazzi argues that when we say that something is true, we do not say something merely about a state of affairs, but also about ourselves. Truth is not just the fact of "what is out there," but a mode of existence that shapes and transforms human understanding. Supported by an original reading of Aristotle's theory of judgment and Heidegger's hermeneutical theory of truth, Chiurazzi also engages the work of Nietzsche, Gadamer, Putnam, and Rorty to challenge the rising tide of theories that dismiss the importance of human experience to the idea of truth. "This is a work of original scholarship. It does not simply explain key ideas but makes a compelling case for regarding truth in a distinctive way from a hermeneutic perspective." — James Risser, author of *Heidegger toward the Turn: Essays on the Work of the 1930s*
