

Modelo De Demanda Colectiva Laboral

Marciano Sánchez Bayle, Madalina Crisbasianu

El modelo mexicano de regulación laboral Graciela Irma Bensusan Areous, 2000-01-01 El ascenso y la declinación de la protección legal a los trabajadores fue un rasgo distintivo del siglo XX. La historia y la situación actual de la legislación laboral mexicana confirma esa evolución, aun cuando todavía se conserven formalmente las viejas instituciones tutelares. El papel innovador de México, al inaugurar la inclusión de los derechos sociales a nivel constitucional se repitió en sentido inverso, en tanto fue uno de los países que impuso un ajuste dramático en las condiciones de trabajo y de vida como forma de salir de las recurrentes crisis de los últimos 20 años y adaptarse a las fuertes exigencias de la competencia internacional, para lo cual protegió abiertamente los intereses empresariales. Las perspectivas de la tutela de los asalariados en el siglo que se inicia dependerán gran medida de las tendencias que distingan al proceso de globalización, sea que conformen sus actuales características excluyentes o por el contrario las reviertan, buscan las regulaciones más apropiadas para poner un freno al desbordado social. Sin embargo, México deberá optar entre esas alternativas y decidir de qué forma respondera a las incertidumbres que en el mundo del trabajo provoca aquel proceso, considerando tanto las ventajas como las desventajas de la legislación vigente. En este libro la autora se une evidencias y elementos de juicio necesarios para tomar esta compleja decisión a partir de una visión retrospectiva de la construcción del modelo mexicano de regulación laboral, de su comparación con otros dentro y fuera del continente americano, del examen de las exigencias que impone el nuevo contexto económico y político del país y de las opciones de reemplazo al iniciarse el nuevo siglo.

Estudios laborales en México, 2025-10-31 Los estudios laborales son una ventana para entender los cambios que experimentan los contextos económicos, sociales y culturales de una nación; en el caso de México nos permite observar cuáles son los intereses de investigación que desarrollan colegas investigadoras e investigadores a lo largo de nuestro país y son una muestra de las perspectivas teóricas y metodológicas de los estudios laborales que se encuentran desarrollándose en las distintas regiones. Cabe aclarar que la presente obra no pretende hacer un balance de la investigación laboral en México, sino más bien acercar al lector a temas de investigación laboral situados en contextos específicos. Este libro invita a reflexionar no sólo los temas clásicos de los estudios laborales, también es una oportunidad para analizar temáticas emergentes producto del avance tecnológico, al igual que aquellas que han sido impulsadas por otros fenómenos, como la pandemia que se vivió recientemente. Dicho esto, lo que nos muestra la obra es que los estudios laborales son un campo

heterogéneo; sin embargo, hay una constante en cada uno de los enfoques que estudian la realidad laboral, la centralidad del trabajo como un elemento fundamental para entender las transformaciones económicas, sociales y culturales de una región o país. DOI: <https://doi.org/10.52501/cc.322>

Flexibilidad laboral y subjetividades Javiera Gómez,Alvaro Soto Roy,2008 Integrado perspectivas disciplinarias como la psicología, la sociología, el derecho, la administración y la historia, agrupa reflexiones vinculadas con procesos psicosociales asociados a la flexibilidad laboral contemporánea. Intentando comprender las vivencias de las personas en el marco de procesos de organización y gestión del empleo caracterizados por la búsqueda inagotable por parte de las empresas de mayores rangos de adaptabilidad y menores costos productivos, se analiza el significado, la aplicación en Chile y las consecuencias psicosociales de la noción de flexibilidad laboral.

La globalización y la protección internacional de los derechos sociales de las personas trabajadoras domésticas en un derecho comparado entre Colombia y España Jaime Arturo Payares Oquendo,2024-09-25 El texto expone una realidad actual crítica que viven las personas que trabajan al interior de un hogar desempeñando las labores asignadas por el empleador. El libro precisa que tanto en España como en Colombia existen normas laborales que benefician a este gremio de personas trabajadoras domésticas en el campo formal, pero aquellos que no son contratados a la luz del derecho enfrentan situaciones de precariedad, discriminación, desvalorización, invisibilización y atropellos a la dignidad humana por su condición de informalidad o trabajo por cuenta propia o autónomo. Son a estas personas, LOS PROTAGONISTAS SOCIALES, que el autor toma de la mano para que el lector los acompañe, no solo en hacer una lectura comprensiva y emotiva acerca de una situación desconocida por muchos, sino que también reconozca las circunstancias de un sector olvidado que necesita de su reflexión razonada y solidaria para salir adelante, «Las Personas Trabajadoras Domésticas Informales».

La sanidad pública en la era post-COVID Marciano Sánchez Bayle,Madalina Crisbasianu,2023-11-21 Este interesante libro se sumerge en un viaje a través de la evolución de la pandemia en América (Estados Unidos, México y Chile) y Europa (España, Portugal y Gran Bretaña). En él se ofrecen valiosas lecciones de las experiencias vividas, las dificultades enfrentadas y los errores cometidos. Pero esta obra va más allá e invita a una profunda reflexión global sobre temas que transformarán nuestra salud y nuestros sistemas sanitarios en los próximos años. Desde la urgente crisis climática, que amenaza tanto al planeta como a las personas, hasta la necesidad imperante de diseñar un nuevo paradigma para los

sistemas de salud. Además, explora los desafíos que plantean la política farmacéutica, la revolución de las tecnologías de la información y comunicación y la atención primaria del futuro. Desde una perspectiva de solidaridad social y desde la defensa del derecho universal a la protección de la salud, este libro presenta innovadoras vías y alternativas para abordar estos retos. Una lectura necesaria para comprender el mundo en el que vivimos y el futuro que nos aguarda.
