

# Peter Hopkirk The Great Game

**Martin J. Bayly**

**The Great Game** Peter Hopkirk, 2001 For nearly a century the two most powerful nations on earth - Victorian Britain and Tsarist Russia - fought a secret war in the lonely passes and deserts of Central Asia. Those engaged in this shadowy struggle called it 'The Great Game', a phrase immortalized in Kipling's *Kim*. When play first began the two rival empires lay nearly 2,000 miles apart. By the end, some Russian outposts were within 20 miles of India. This book tells the story of the Great Game through the exploits of the young officers, both British and Russian, who risked their lives playing it. Disguised as holy men or native horsetraders, they mapped secret passes, gathered intelligence, and sought the allegiance of powerful khans. Some never returned.

**The Great Game** Peter Hopkirk, 1992

**Quest for Kim** Peter Hopkirk, 2012-02-16 This book is for all those who love *Kim*, that masterpiece of Indian life in which Kipling immortalized the Great Game. Fascinated since childhood by this strange tale of an orphan boy's recruitment into the Indian secret service, Peter Hopkirk here retraces *Kim*'s footsteps across Kipling's India to see how much of it remains. To attempt this with a fictional hero would normally be pointless. But *Kim* is different. For much of this Great Game classic was inspired by actual people and places, thus blurring the line between the real and the imaginary. Less a travel book than a literary detective story, this is the intriguing story of Peter Hopkirk's quest for *Kim* and a host of other shadowy figures.

*Quest for Kim* Peter Hopkirk, 1996 This Book Is An Affectionate Salute To *Kim*--That Masterpiece Of Indian Life In Which Kipling Immortalized The Great Game. Fascinated Since Childhood By This Strange Tale Of An Orphan Boy's Recruitment Into Indian Secret Service, Many Mysteries Surrounding Kipling's Great Novel Are Explored Here.

**Like Hidden Fire** Peter Hopkirk, 1994 A real life spy thriller recounting the Turco-German plot of 1914 to start a Holy War against the British in India and the Russians in Central Asia to gain world dominance.

**Great Game** Peter Hopkirk, 1990-05-10

*History of Central Asia, The: 4-volume set* Christoph Baumer, 2018-04-18 This set includes all four volumes of the critically acclaimed *History of Central Asia* series. The epic plains and arid deserts of Central Asia have witnessed some of the greatest migrations, as well as many of the most transformative developments, in the history of civilization. Christoph Baumer's ambitious four-volume treatment of the region charts the 3000-year drama of Scythians and Sarmatians; Soviets

and transcontinental Silk Roads; trade routes and the transmission of ideas across the steppes; and the breathless and brutal conquests of Alexander the Great and Chinghiz Khan. Masterfully interweaving the stories of individuals and peoples, the author's engaging prose is richly augmented throughout by colour photographs taken on his own travels. This set includes The Age of the Steppe Warriors (Volume 1), The Age of the Silk Roads (Volume 2), The Age of Islam and the Mongols (Volume 3) and The Age of Decline and Revival (Volume 4)

**Taming the Imperial Imagination** Martin J. Bayly, 2016-05-19 Taming the Imperial Imagination marks a novel intervention into the debate on empire and international relations, and offers a new perspective on nineteenth-century Anglo-Afghan relations. Martin J. Bayly shows how, throughout the nineteenth century, the British Empire in India sought to understand and control its peripheries through the use of colonial knowledge. Addressing the fundamental question of what Afghanistan itself meant to the British at the time, he draws on extensive archival research to show how knowledge of Afghanistan was built, refined and warped by an evolving colonial state. This knowledge informed policy choices and cast Afghanistan in a separate legal and normative universe. Beginning with the disorganised exploits of nineteenth-century explorers and ending with the cold strategic logic of the militarised 'scientific frontier', this book tracks the nineteenth-century origins of contemporary policy 'expertise' and the forms of knowledge that inform interventions in Iraq, Afghanistan and elsewhere today.

**Borderlines and Borderlands** Alexander C. Diener, Joshua Hagen, 2010-01-16 From our earliest schooldays, we are shown the world as a colorful collage of countries, each defined by their own immutable borders. What we often don't realize is that every political boundary was created by people. No political border is more natural or real than another, yet some international borders make no apparent sense at all. While focusing on some of these unusual border shapes, this fascinating book highlights the important truth that all borders, even those that appear normal, are social constructions. In an era where the continued relevance of the nation state is being questioned and where transnationalism is altering the degree to which borders effectively demarcate spaces of belonging, the contributors argue that this point is vital to our understanding of the world. The unique and compelling histories of some of the world's oddest borders provide an ideal context for this group of experts to offer accessible and enlightening discussions of cultural globalization, economic integration, international migration, imperialism, postcolonialism, global terrorism, nationalism, and supranationalism. Each author's regional expertise enriches a textured account of the historical context in which these borders came into existence as well as their historical and ongoing influence on the people and states they bound. To view more maps from the David Rumsey Map Collection, visit [www.davidrumsey.com](http://www.davidrumsey.com). Contributions by: Eric D. Carter, Karen Culcasi, Alexander C. Diener, Joshua Hagen, Reece Jones, Robert Lloyd, Nick Megoran, Julian V. Minghi, David Newman, Robert Ostergren, and William C. Rowe.

*Imagining Afghanistan* Nivi Manchanda, 2020-07-09 Over time and across different genres, Afghanistan has been

presented to the world as potential ally, dangerous enemy, gendered space, and mysterious locale. These powerful, if competing, visions seek to make sense of Afghanistan and to render it legible. In this innovative examination, Nivi Manchanda uncovers and critically explores Anglophone practices of knowledge cultivation and representational strategies, and argues that Afghanistan occupies a distinctive place in the imperial imagination: over-determined and under-theorised, owing largely to the particular history of imperial intervention in the region. Focusing on representations of gender, state and tribes, Manchanda re-historicises and de-mythologises the study of Afghanistan through a sustained critique of colonial forms of knowing and demonstrates how the development of pervasive tropes in Western conceptions of Afghanistan have enabled Western intervention, invasion and bombing in the region from the nineteenth century to the present.

*The Traveler's Handbook* Jonathan Lorie, Amy Sohanpaul, 2001 Today's most authoritative guide on how to travel anywhere, anyhow. This guide contains expert advice from the world's most experienced travelers, personal reflections from globe-trotting celebrities, survival tips and health facts, profiles of every country as well as a comprehensive contacts directory. Whether you're a backpacker or a business traveler, an adventurer or a beginner, you'll find this book essential and inspiring. (5 x 7 1/4, 960 pages, charts)

American Ascendancy and British Retreat in the Persian Gulf Region W. Taylor Fain, 2008-06-15 This book critically examines the origins of American diplomacy in the greater Persian Gulf region, arguing that it was the inability of the United States to contend effectively with the disintegration of British imperial authority in the Gulf that eventually led it to assume its current role in the region.

The Soviet-Afghan War Russia (Federation). General'nyi shtab, 2002 Offers a candid view of a war that played a significant role in the ultimate demise of the Soviet Union. Presents analysis absolutely vital to Western policymakers, as well as to political, diplomatic, and military historians and anyone interested in Russian and Soviet history. Provides insights regarding current and future Russian struggles in ethnic conflicts both at and within their borders, struggles that could potentially destroy the Russian Federation.
