**Umbanda** Diana DeGroat Brown,1994 The history and development of the Brazilian religion Umbanda are explored in this text. The author describes the defining features of the religion, its practices, followers and beliefs, its dramatic geographical spread across the country, and its relationship to rapid urban growth.

**Spiritualism, African Deities, and Sacred Plants** Giovanna Campani,Claudia Herzfeld,2025-06-30 The book aims to explore how religious syncretism and multifaceted Brazilian spirituality represent an attempt at unifying Brazil's heterogeneous population and cultures and, at the same, a global trend in modernity and post-modernity. Because of historical processes and contemporary dynamics (New Age, globalization), Brazil is an essentially syncretistic nation. Historically, Afro-Catholicism syncretism has been a way for African diaspora's conquered cultures to preserve their religious identity by incorporating elements of the dominant religion; nowadays the Afro religious universe has become a universal religious proposal, irrespective of nation, ethnicity, race, or color. Intertwined with Kardecism, a late comer in Brazil, Afro religious beliefs and practices have led to the emergence of new religious expressions as the Umbanda. Originated in France, Kardecist spiritualism has become fundamental in shaping Brazilian religious culture. More recent expressions of Brazilian religious syncretism are the "ayahuasca" religions (Santo Daime, Barquinha, União do Vegetal), whose spiritual experiences blend demands coming from various segments of social groups -from rural workers to intellectuals and artists - and indigenous rituals. In the last forty years, New Age spirituality, "ayahuasca" religions and neo-shamanism have developed along blurred borders, expanding outside Brazil, while the indigenous traditions have reemerged through processes of ethnic revitalization.

**Spirit Possession and Spirit Mediumship in Africa and Afro-America** Irving Zaretsky,Cynthia Shambaugh,2019-06-19 Originally published in 1978 Spirit Possession and Spirit Mediumship in Africa and Afro-America is an incredibly diverse and comprehensive bibliography on published works containing ethnographic data on, and analysis of, spirit possession and spirit mediumship in North and Sub-Saharan Africa and in some Afro-American communities in the Western Hemisphere. The sources on Western Afro-American communities were chosen to shed light on the African continent and the Americas. The bibliography, while not exhaustive, provides extensive research on the area of research in spiritualism in Africa and Afro-America. The bibliography also provides unique sources on spirit cults, ritual or ethnic groups

and will be of especial interest to researchers. Although published in the late 70s, this book will still provide an incredibly useful research tool for academics in the area of religion, with a focus on spiritualism and non-western religions.
